beko

Trust. It's when you make the right choices.
For the right reasons. At home. Just like in life.
Whatever situation you find yourself in,
with Beko you make a lifestyle choice.

It's a feeling.

Whatever life throws at you, **we're by your side.**
With the solutions you need.

To guide you towards **a healthier lifestyle.**

Reducing energy consumption in your home.

Simplifying your life,

with products you can rely on, eliminating all sources
of stress.

The choice is yours.

It's an attitude.

The trust you place in us is an incentive to be
ever more reliable.

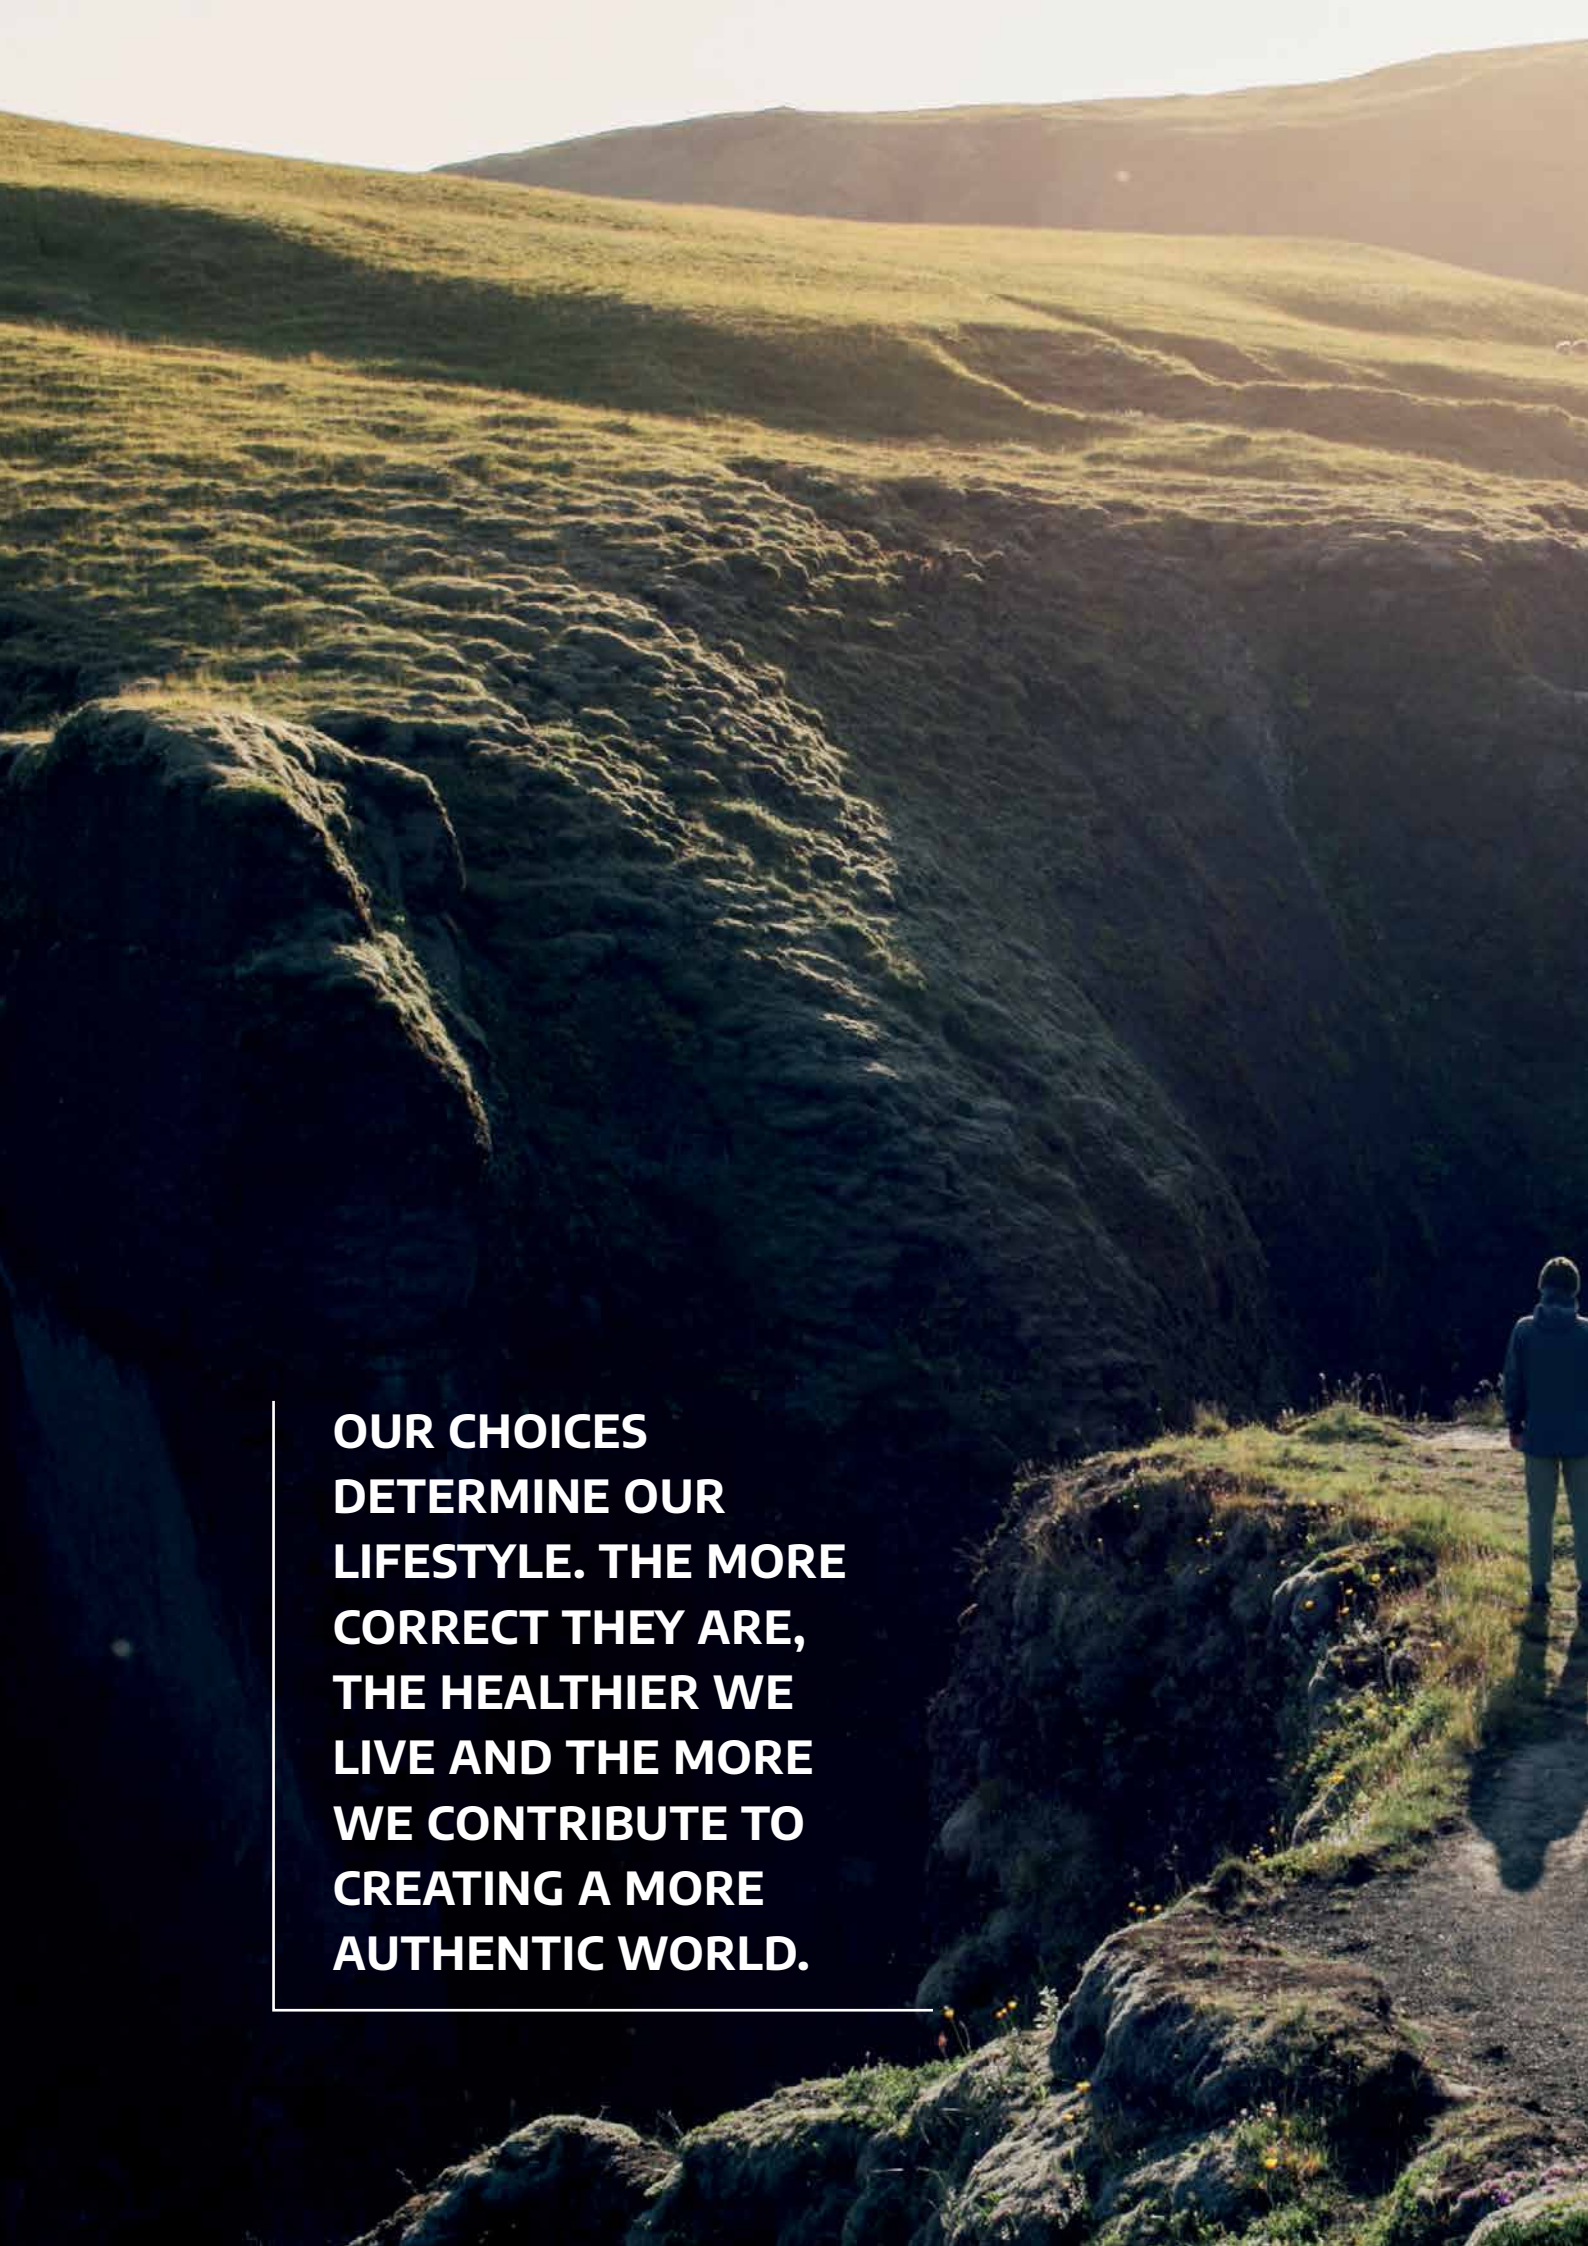

The more trust you give us, the more we become
a benchmark brand capable of achieving important
recognition.

We have shaped our vision with passion, dedication,
and serenity.

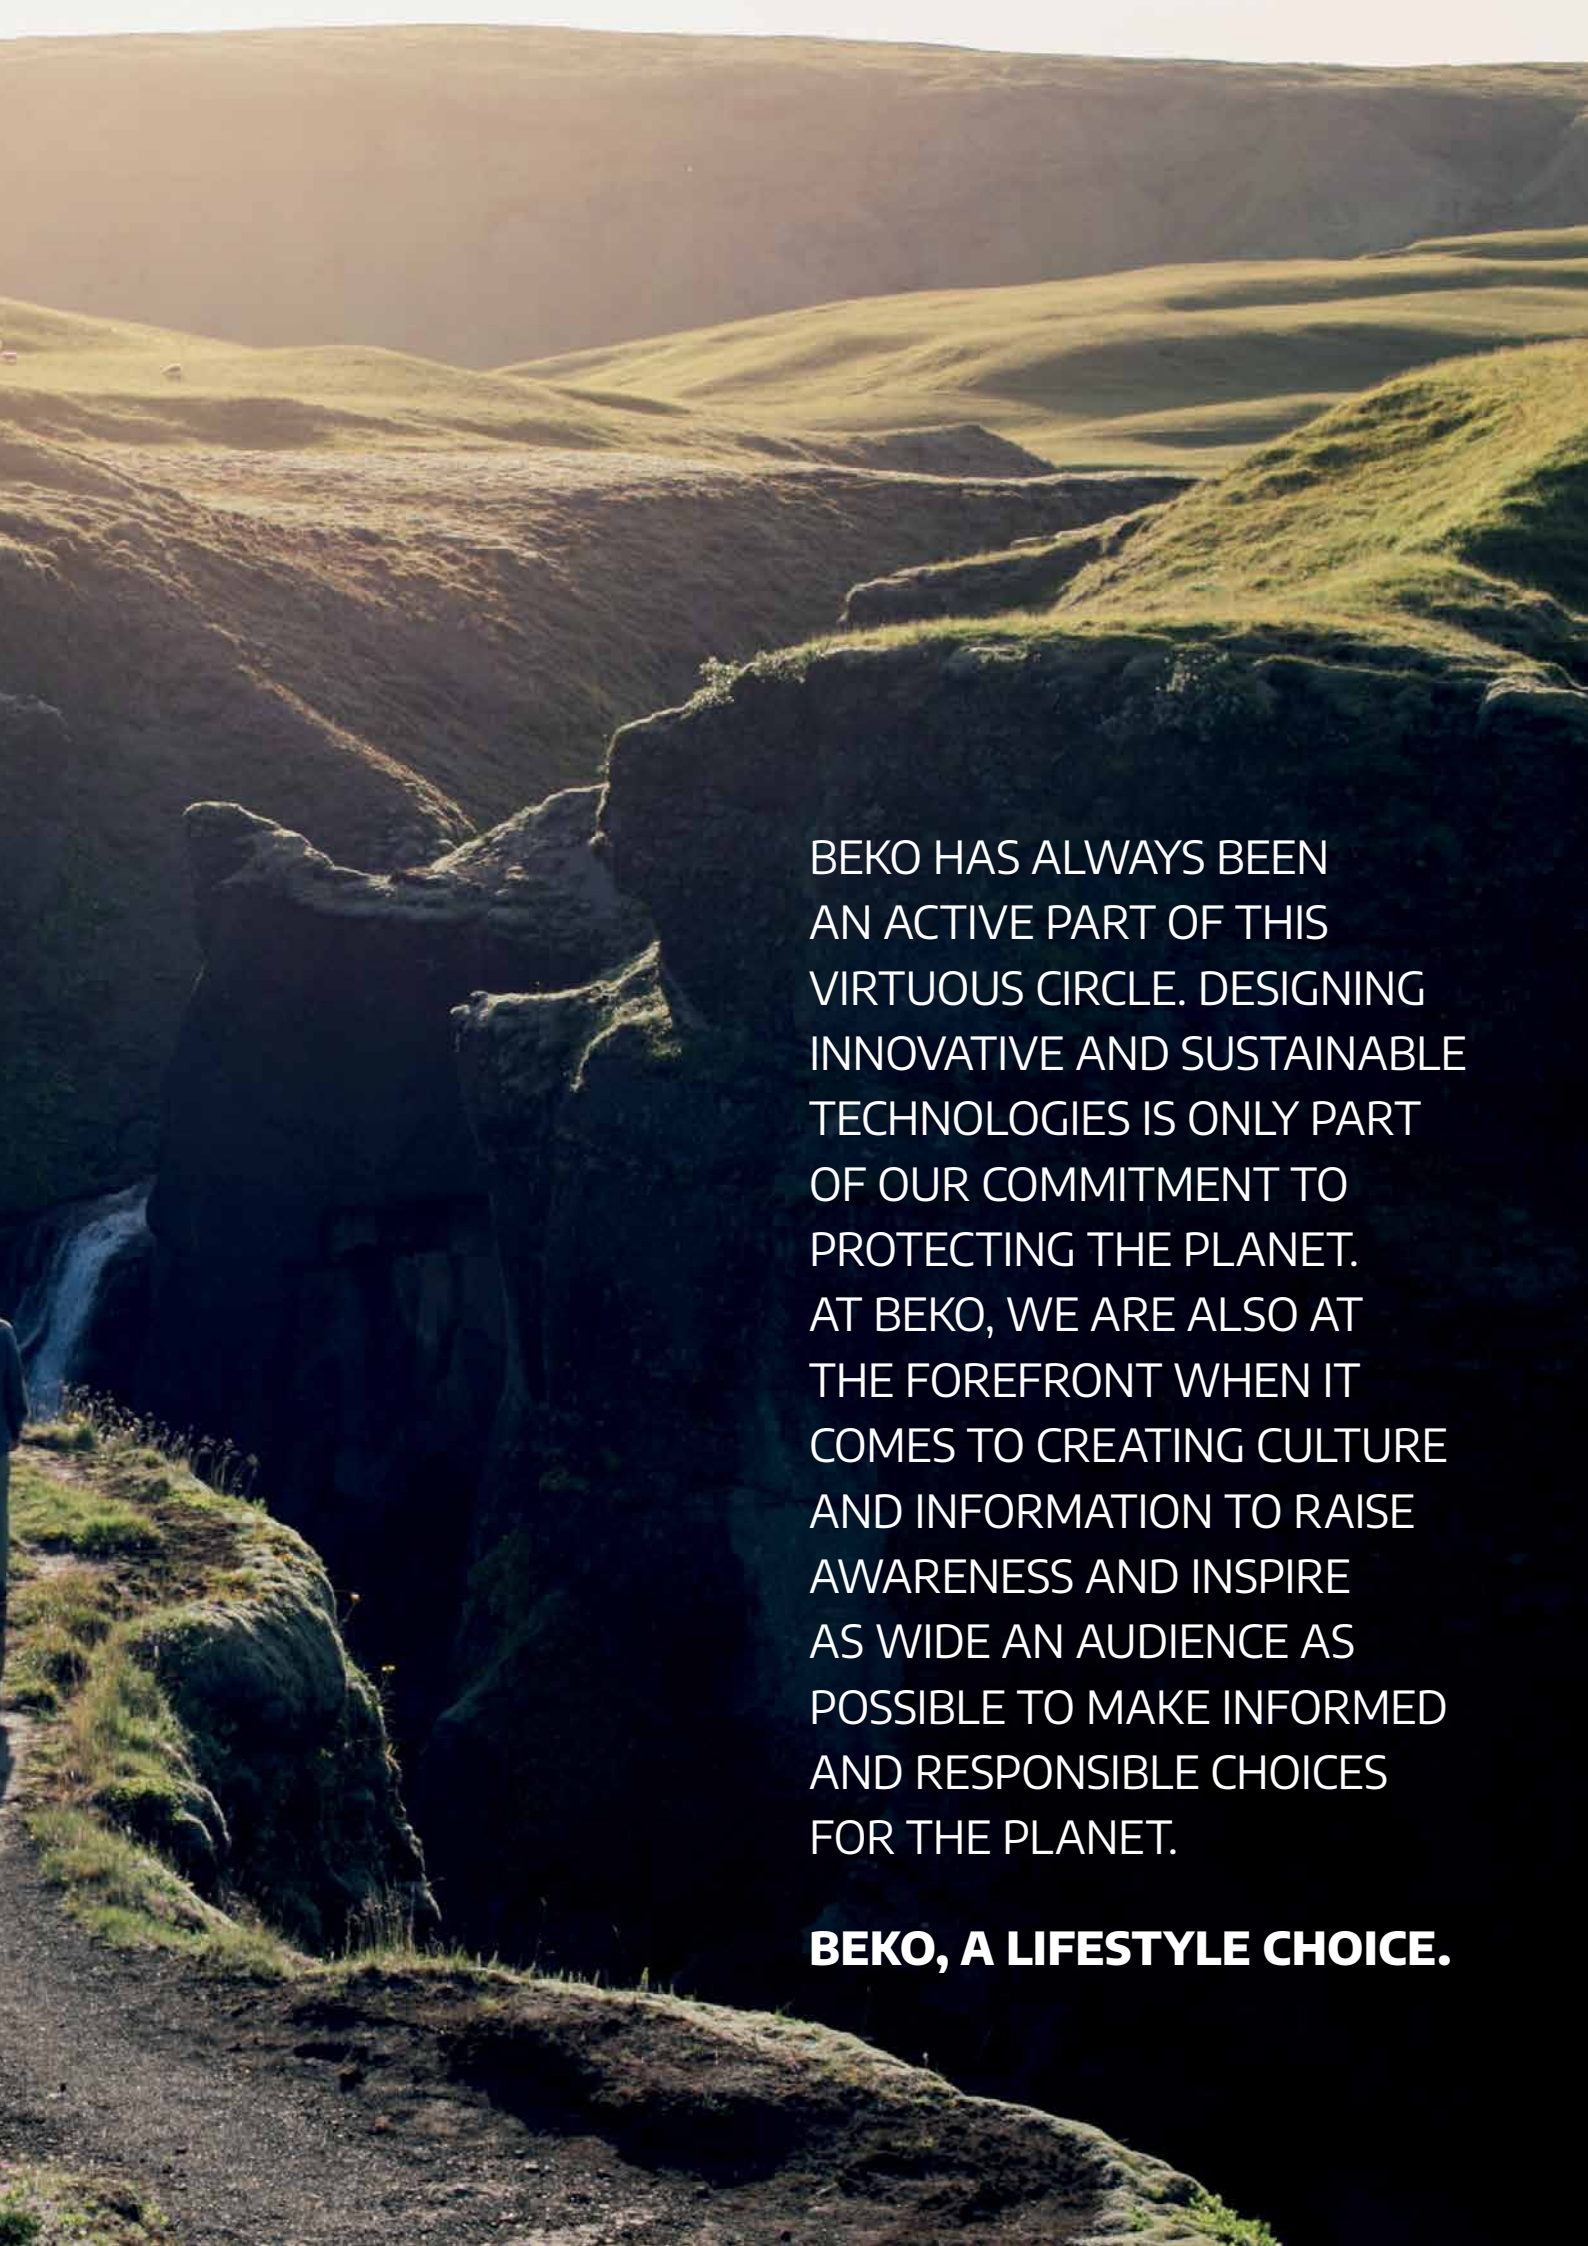

With great confidence.

Beko, a lifestyle choice.

beko

A person in a blue jacket and light-colored pants stands on a rocky, moss-covered cliff edge, looking out over a vast, deep valley. The valley floor is covered in thick, green moss and is illuminated by the warm, golden light of a setting or rising sun. The background shows rolling hills under a clear sky. The overall mood is serene and contemplative.

**OUR CHOICES
DETERMINE OUR
LIFESTYLE. THE MORE
CORRECT THEY ARE,
THE HEALTHIER WE
LIVE AND THE MORE
WE CONTRIBUTE TO
CREATING A MORE
AUTHENTIC WORLD.**

BEKO HAS ALWAYS BEEN AN ACTIVE PART OF THIS VIRTUOUS CIRCLE. DESIGNING INNOVATIVE AND SUSTAINABLE TECHNOLOGIES IS ONLY PART OF OUR COMMITMENT TO PROTECTING THE PLANET. AT BEKO, WE ARE ALSO AT THE FOREFRONT WHEN IT COMES TO CREATING CULTURE AND INFORMATION TO RAISE AWARENESS AND INSPIRE AS WIDE AN AUDIENCE AS POSSIBLE TO MAKE INFORMED AND RESPONSIBLE CHOICES FOR THE PLANET.

BEKO, A LIFESTYLE CHOICE.

Beko, from Europe's Number 1 large home appliances company*

a **beko** state of mind

Introducing a Beko state of mind. A feeling you get knowing that your health, finances and emotional well being are well balanced and working for you.

You see at Beko, we promote that holistic confidence throughout our business and across our products.

From innovative technology ensuring your vegetables stay fresher and nutritious for longer, with our unique HarvestFresh.

What's more, our rough and rigorous stress tests maximise reliability, meaning we take the strain – so you can be confident your home doesn't have to.

That's a Beko state of mind.

a **beko** state of mind

Beko **built-in products** take inspiration from nature, combining harmonious design with reliable performance to support healthier living for you and the planet. The range includes **built-in refrigerators, dishwashers, washing machines, ovens, hobs, microwaves, and hoods**, all designed to integrate seamlessly into modern cabinetry. With a balanced approach to aesthetics, efficiency, and durability, Beko built-in solutions help create a more **sustainable and comfortable home** without compromising on style or everyday practicality.

BUILT-IN REFRIGERATORS

Beko built-in refrigerators are designed to integrate seamlessly into modern kitchen cabinetry, creating a refined and cohesive look that enhances the overall kitchen environment. Inspired by nature, their harmonious design balances clean lines, subtle detailing, and a timeless aesthetic that complements a wide range of interior styles. By fitting discreetly within cabinetry, these refrigerators help maintain visual continuity while offering a thoughtfully organized interior that supports everyday convenience.

Built with a focus on reliable performance and responsible design, Beko built-in refrigerators contribute to healthier living for both you and the planet. Durable materials, efficient operation, and long-lasting construction reflect Beko's commitment to sustainability and quality. Developed by one of Europe's leading home appliance brands, these built-in solutions combine elegance, practicality, and environmental awareness to meet the demands of contemporary kitchens.

- **Under Counter Single Door**

INNOVATIVE TECHNOLOGIES

NEO frost™ Dual Cooling

FASTER COOLING FOR LONGER FRESHNESS

It's important to keep the food fresh for longer in the refrigerator. Also, it is difficult to keep fish in the freezer together with a lovely cake in the fridge without their odours mixing. Beko's separate cooling system technology for each compartment provides faster cooling by maintaining ideal air flow and optimal temperatures with an optimal level of humidity in both the freezer and the fridge. The result is the food stays fresh for longer with no frost build-up or odour transfer.

- ✓ High Efficiency
- ✓ High Durability
- ✓ Low Noise Levels

ProSmart™ Inverter Compressor

High efficiency, high durability, low noise

Don't pay loads of money for electricity bills just for a refrigerator that does the job. You can open the door as many times as you like, ProSmart™ Inverter Compressor technology will adapt and create fewer temperature variations, provide faster cooling with less energy, and allow your food to stay fresh for much longer. The compressor's design provides more durability while being 4 times quieter.

INNOVATIVE TECHNOLOGIES

AqualIntense®

INTENSE CLEANING PERFORMANCE FOR THE DIRTIEST DISHES

Stubborn dirt and hard-to-clean dishes? No problem! **AqualIntense®** creates a powerful cleaning zone with intense water pressure and offers up to 5 times better cleaning performance, so even the toughest pots and pans get a thorough clean. No matter what you put your cookware and dishes through in the kitchen, with **AqualIntense®**, they'll come out spotless every time.

*Tested by internal laboratories on an intensive 70°C program

ProSmart™ Inverter Motor

High efficiency, low noise

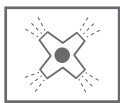

Want to save on your electricity bills and have a quieter, more efficient dishwasher? The **ProSmart™ Inverter Motor** in your Beko dishwasher reduces friction and is twice as quiet*. With ratings of up to A+++, it'll help you save on water and electricity too.

INNOVATIVE TECHNOLOGIES

AEROperfect™

**PERFECT HOT AIR DISTRIBUTION, MEALS
COOKED TO PERFECTION.**

When hot air isn't evenly distributed throughout your oven, you end up with food burnt at the edges or uncooked in the middle. **AeroPerfect™** technology takes its inspiration from aircraft designs, an industry which understands aerodynamics better than any other. Using this expertise, **AeroPerfect™** uses a constant stream of even airflow all around the oven, all the while minimising temperature fluctuation, so your food is cooked to absolute perfection every single time. All you need is to put your food in the oven and enjoy the perfect results!

LED Screen

LED screen enables you to set cooking time easily. With the start & delay function you can set the time you want your meal to be ready at.

a **beko** state of mind

INNOVATIVE TECHNOLOGIES

Steam Assisted Oven

BETTER BAKING & ROASTING WITH EXTERNAL WATER TANK

Beko ovens with the Steam Assisted Cooking feature help you cook delicious pastries, bread, meat & poultry. Cook easily fluffy pastries and bread with a crispy crust and juicy meat & poultry. During the cooking cycle, water is poured in the cavity directly from the water tank to bottom of oven cavity and steam forms. That makes it safe and convenient to put the water in the easy-to-fill water tank any time during cooking instead of pouring it into the bottom of the oven to create steam. It enables it to cook longer with steam, which prevents the meat & poultry from drying out during roasting.

INNOVATIVE TECHNOLOGIES

High-Efficiency Gas Burners

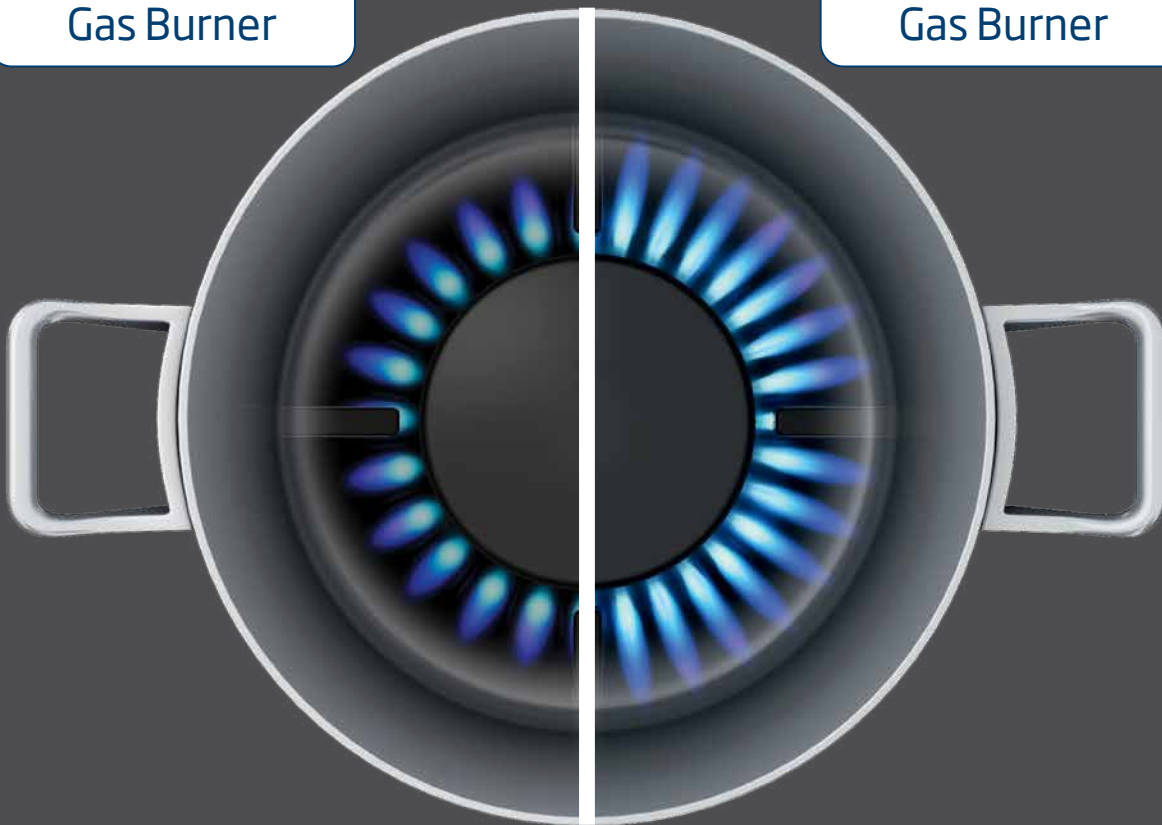

FASTER AND MORE EFFICIENT COOKING WITH SPECIAL BURNER DESIGN

Don't let a busy day cost you a healthy meal. Now you can cook every meal faster and more efficiently on the hob. High Efficiency Gas Burners use less gas and cook more quickly than standard burners. So even when you're short on time, you can put your favourite meals on the table fast.

Conventional
Gas Burner

High-Efficiency
Gas Burner

High Power Wok Burner

Maximising cooking power

If you like stir-fry at home, you need a high performing hob. With the Beko High Power Wok Burner you get an extremely intense flame at a hot 5Kw. This allows heat to be more evenly distributed across the bottom of the wok. So, faster noodles with improved cooking performance.

INNOVATIVE TECHNOLOGIES

Gas Hobs and Hotplates

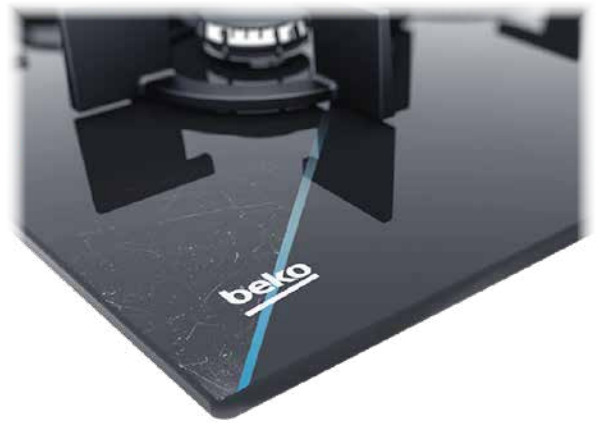

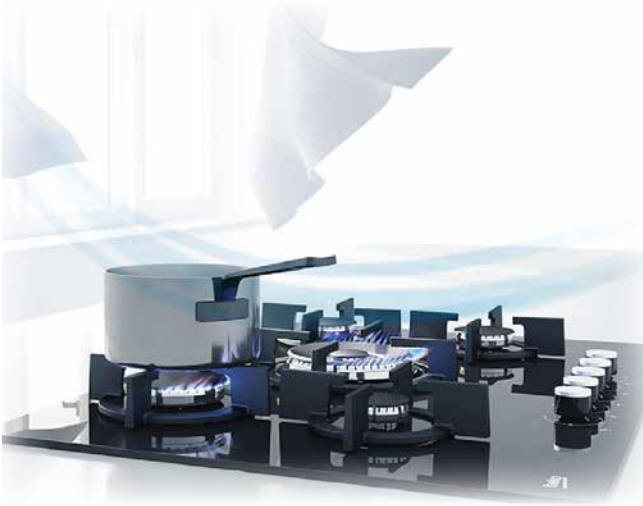

Cast Iron Pan Support

For traditional cooking, a **gas hob works** best. Besides the normal heating and cooking, you can always use the open flame to roast peppers, brown tortillas or stir-fry in a traditional rounded-bottom wok. If your kitchen is not fitted with gas, you can always opt for a **Hotplate**. It only requires electricity to work and is more solid, reliable and cheaper than ceramic hobs.

NO SLIP UPS

Cast iron pan supports enhance the stylish and professional look of your hob, while also providing maximum stability. So, you can use pots and pans of any size without the risk of tilting or sliding.

Gas Safety

Tempered Glass Surface

AUTOMATIC GAS CUT-OFF

It's easy for a flame to go out when you're not around, unleashing dangerous gas into the house. The Gas Safety feature will detect when a burner flame is extinguished by an over-boiling pot or a gust of wind, and shut off the gas supply. No leaks, no worries.

SCRATCH-RESISTANT SURFACE & SLEEK DESIGN

Style meets durability in Beko's Glass Surface hobs with their sleek design and easy-to-clean, scratch resistant surface.

INNOVATIVE TECHNOLOGIES

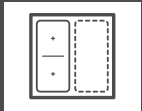

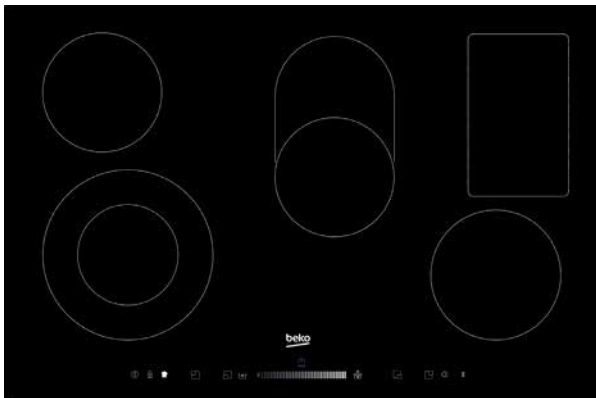

Direct Access Premium

Slim Touch Control

Led-illuminated controls that allow the hob to go totally black when switched off. Has separate controls for each zone with 15 power levels slider, timers, Automatic cooking function, Booster and Hob - Hood Connectivity. Comes with child lock.

Touch control buttons on slim line design allow choosing from 9 power levels. Timer can be set for each zone individually. Comes with child lock function.

VitroCeramic Hobs

Stylish VitroCeramic Hobs look great in nicely designed kitchens, as their neat glass plate seamlessly integrates with the furniture. They work by heating coiled elements beneath the toughened glass surface and radiating that heat up to the pan.

BUILT-IN HOODS

Beko built-in hoods are designed to integrate seamlessly into modern kitchen cabinetry, delivering a clean and cohesive look that enhances the overall kitchen environment. Inspired by nature, their harmonious design combines refined lines, subtle detailing, and a timeless aesthetic that complements a wide range of interior styles. By fitting discreetly within cabinetry, these hoods maintain visual continuity while ensuring an unobtrusive yet effective ventilation solution for everyday cooking.

Engineered for reliable performance and responsible design, Beko built-in hoods support healthier living for both you and the planet. Efficient air extraction, durable materials, and energy-conscious operation reflect Beko's commitment to sustainability and long-lasting quality. Developed by one of Europe's leading home appliance brands, these built-in solutions seamlessly combine elegance, practicality, and environmental awareness to meet the demands of contemporary kitchens.

INNOVATIVE TECHNOLOGIES

Intensive Ventilation

MORE VENTILATION POWER

Grilling and frying can create intense odours, so you need ventilation to eliminate these. Beko **Intensive Ventilation** is more efficient than average cooker hoods. It has a booster setting 67%* more powerful than the maximum setting, so you can use it to get rid of strong smells when you're grilling and frying.

*Tested by internal laboratories

Led illumination

Your dish under the spotlight

It's important to see exactly what you're cooking clearly, and kitchen lighting is often gear more towards mood than practicality. With Beko's LED Illumination, your whole hob is bathed in beautiful light, and your cooking made crystal clear. Plus the LED saves energy too.

a **beko** state of mind

INNOVATIVE TECHNOLOGIES

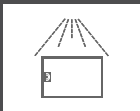

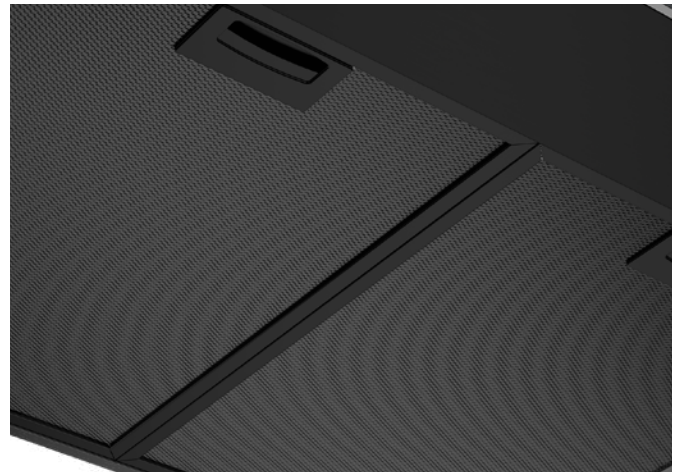

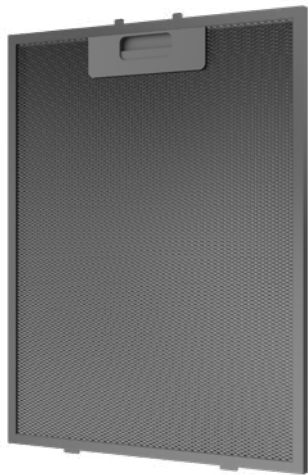

Air Cleaning Mode

HOURLY HANDS-FREE VENTILATION

Like cooking tasty food but not so keen on the strong odours they can leave behind? Beko has just the solution. The Air Cleaning Mode helps to quietly get rid of kitchen odours, without using much energy. Every hour, the hood automatically switches on for 10 minutes at minimum speed, totally refreshing the air in the kitchen.

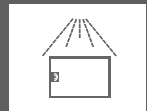

INNOVATIVE TECHNOLOGIES

**Dishwasher Safe
Filters**

Carbon Filters

EASY-TO-CLEAN FILTERS

Nobody wants to hand wash greasy hood filters, and now you don't have to with **Dishwasher-Safe Filters**. Just pop them in the dishwasher, run a normal cycle, and then pop them back in the hood. Easy!

SAY GOODBYE TO ODOURS

With houses coming in all shapes and sizes, you might not have a chimney outlet. Beko's built-in hoods have **carbon filters** to keep the air circulating and get rid of any unwelcome cooking odours. So, with or without a chimney, your kitchen will always feel fresh.

Auto Shut Down

15 MINUTES OF AUTOMATIC VENTILATION

After slaving away in a hot kitchen, you want to relax on the sofa, no worry about getting the cooking smells out of your kitchen. Beko **Auto Shutdown technology** lets you switch on your extractor hood for 15 minutes, after which it automatically shuts itself off.

Filter Saturation Light

A GENTLE REMINDER TO CHANGE THE FILTER

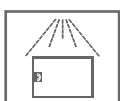

Forgetting to change the filters of your hood may cause clogged filters which reduces performance. That's why we've fitted a useful **Filter Saturation Light** and Buzzer to remind you change the filters when required. Your hood measures the interval between your last clean to minimise the amount of effort you have to put in to get rid of any grease residue.
