HOME APPLIANCES

beko

Trust. It's when you make the right choices.
For the right reasons. At home. Just like in life.
Whatever situation you find yourself in,
with Beko you make a lifestyle choice.

It's a feeling.

Whatever life throws at you, **we're by your side.**
With the solutions you need.

To guide you towards **a healthier lifestyle.**

Reducing energy consumption in your home.

Simplifying your life,

with products you can rely on, eliminating all sources
of stress.

The choice is yours.

It's an attitude.

The trust you place in us is an incentive to be
ever more reliable.

The more trust you give us, the more we become
a benchmark brand capable of achieving important
recognition.

We have shaped our vision with passion, dedication,
and serenity.

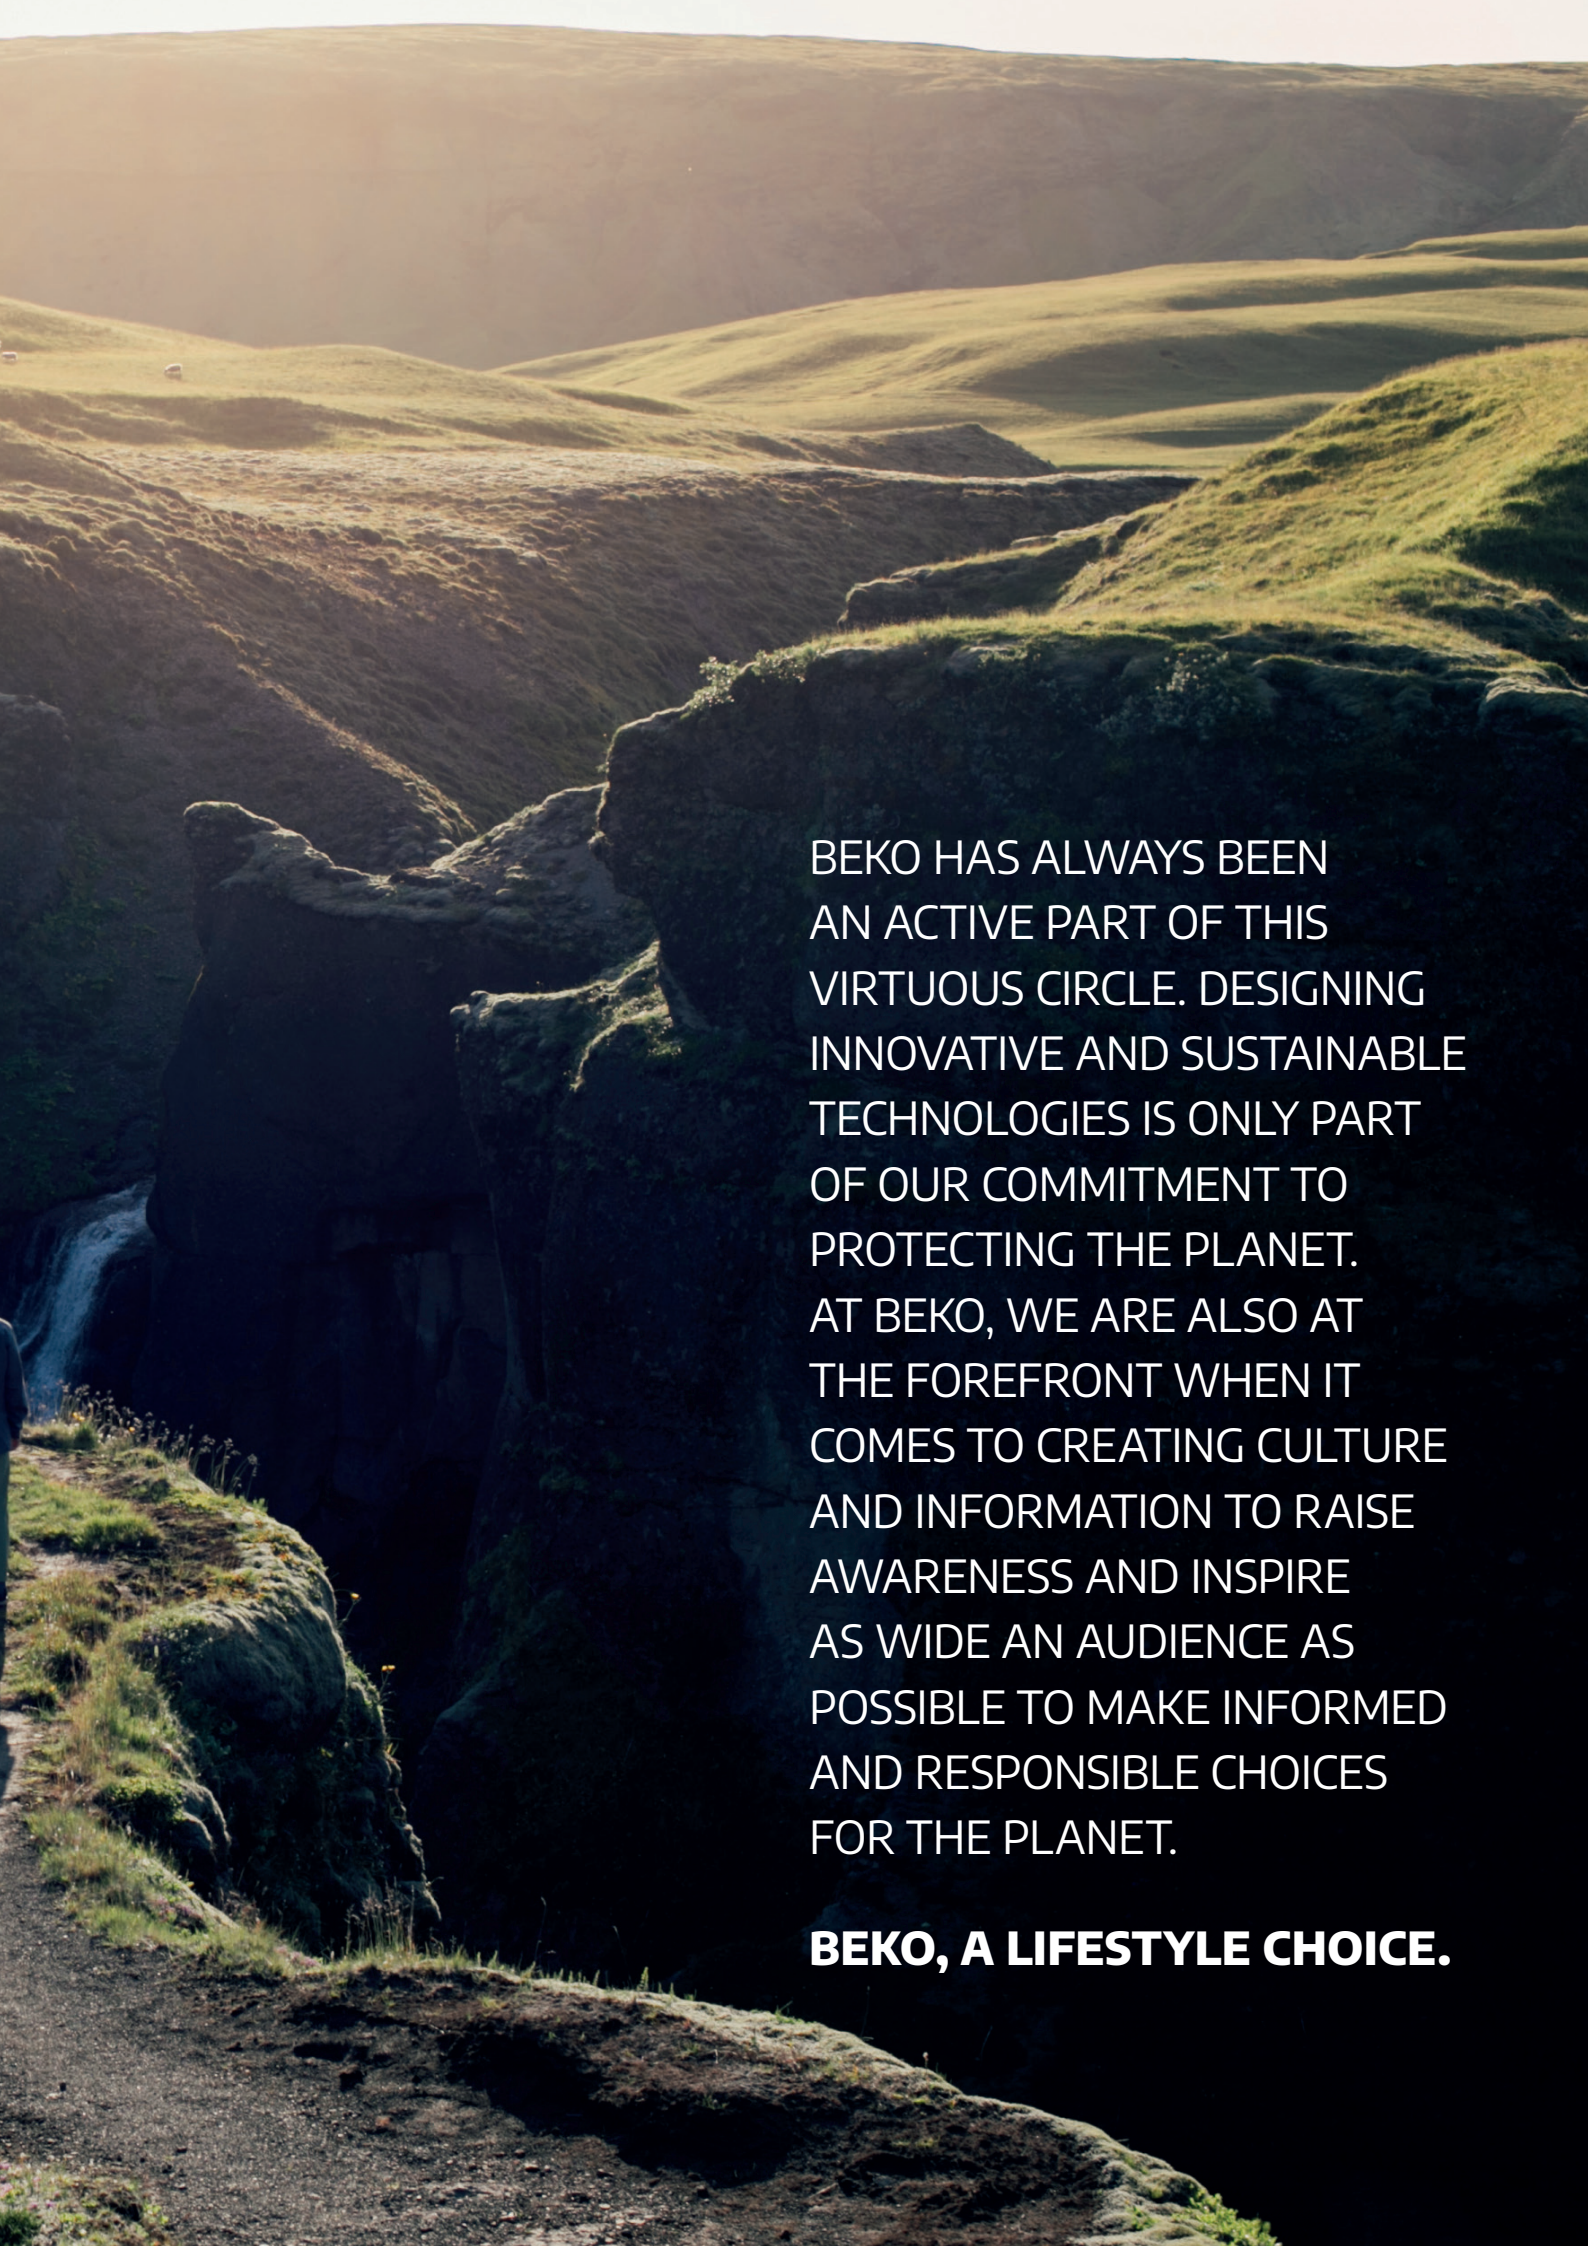

With great confidence.

Beko, a lifestyle choice.

beko

A person in a blue jacket and light-colored pants stands on a rocky path overlooking a vast, mossy valley. The scene is illuminated by the warm, golden light of a sunset or sunrise, casting long shadows and highlighting the textures of the moss and rocks. The valley is filled with dense, green moss, and the hills in the background are covered in a similar vegetation. The overall atmosphere is serene and majestic.

**OUR CHOICES
DETERMINE OUR
LIFESTYLE. THE MORE
CORRECT THEY ARE,
THE HEALTHIER WE
LIVE AND THE MORE
WE CONTRIBUTE TO
CREATING A MORE
AUTHENTIC WORLD.**

BEKO HAS ALWAYS BEEN AN ACTIVE PART OF THIS VIRTUOUS CIRCLE. DESIGNING INNOVATIVE AND SUSTAINABLE TECHNOLOGIES IS ONLY PART OF OUR COMMITMENT TO PROTECTING THE PLANET. AT BEKO, WE ARE ALSO AT THE FOREFRONT WHEN IT COMES TO CREATING CULTURE AND INFORMATION TO RAISE AWARENESS AND INSPIRE AS WIDE AN AUDIENCE AS POSSIBLE TO MAKE INFORMED AND RESPONSIBLE CHOICES FOR THE PLANET.

BEKO, A LIFESTYLE CHOICE.

Beko, from Europe's Number 1 large home appliances company*

a **beko** state of mind

Introducing a Beko state of mind. A feeling you get knowing that your health, finances and emotional well being are well balanced and working for you.

You see at Beko, we promote that holistic confidence throughout our business and across our products.

From innovative technology ensuring your vegetables stay fresher and nutritious for longer, with our unique HarvestFresh.

What's more, our rough and rigorous stress tests maximise reliability, meaning we take the strain – so you can be confident your home doesn't have to.

That's a Beko state of mind.

COOLING LINE COLLECTION

Beko introduces the new and exclusive Cooling Line Collection — a distinctive aesthetic line that combines advanced refrigeration technology with the latest trends in contemporary design.

The collection embodies the purity and elegance of cool tones inspired by ice and frost, enhanced by matte finishes and clean architectural lines. These elements create a sleek and timeless appearance that fits seamlessly into any modern kitchen, whether built-in or freestanding. Fine detailing on the handles and premium textures further emphasize Beko's signature balance of functionality and style.

The refrigerator, the centerpiece of the Cooling Line Collection, brings together precision engineering and refined aesthetics. Smooth surfaces, soft-touch materials, and carefully designed storage zones ensure both comfort and practicality. Every detail is crafted to deliver optimum freshness, energy efficiency, and a quiet sense of luxury that endures over time.

With the Cooling Collection, Beko reimagines refrigeration — where design meets performance, and every element contributes to a sense of harmony, innovation, and lasting beauty.

01

**THE COOLING
LINE COLLECTION
CONSISTS OF
REFRIGERATOR,
FREEZER, AND
LARDER MODELS.**

COOLING COLLECTION

- MULTI-DOOR
- SIDE BY SIDE
- DOUBLE DOOR FREEZER TOP
- LARDER
- SINGLE DOOR FREEZER
- CHEST FREEZER

The **Beko Cooling Collection** brings together a complete range of refrigerators and freezers designed to suit every home and lifestyle. From the spacious Side by Side Refrigerator and the versatile 4 Door Refrigerator, to the practical Top Mount and Bottom Mount models, each appliance reflects a perfect balance of style and functionality. The Single Door Refrigerator offers a sleek solution for compact spaces, while the Single Door Freezer and Chest Freezer provide additional storage options with timeless design and reliability. Combining elegant aesthetics with modern performance, the Cooling Collection transforms everyday refrigeration into a refined experience.

INNOVATIVE TECHNOLOGIES

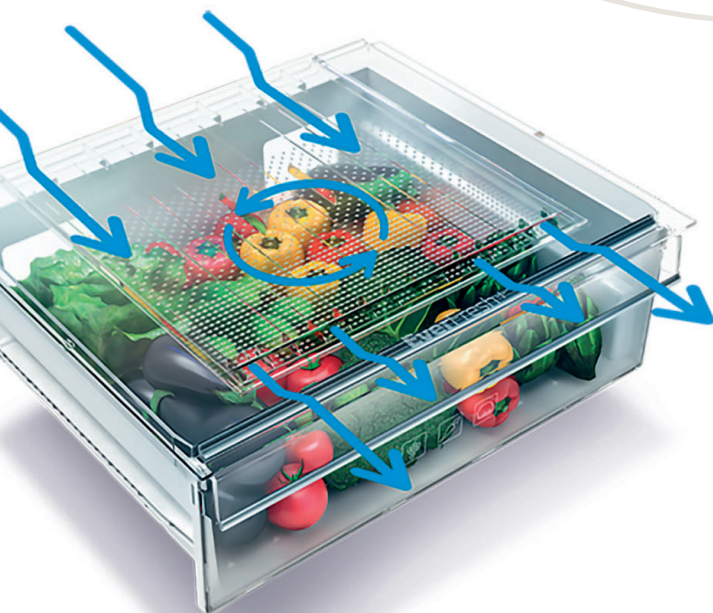

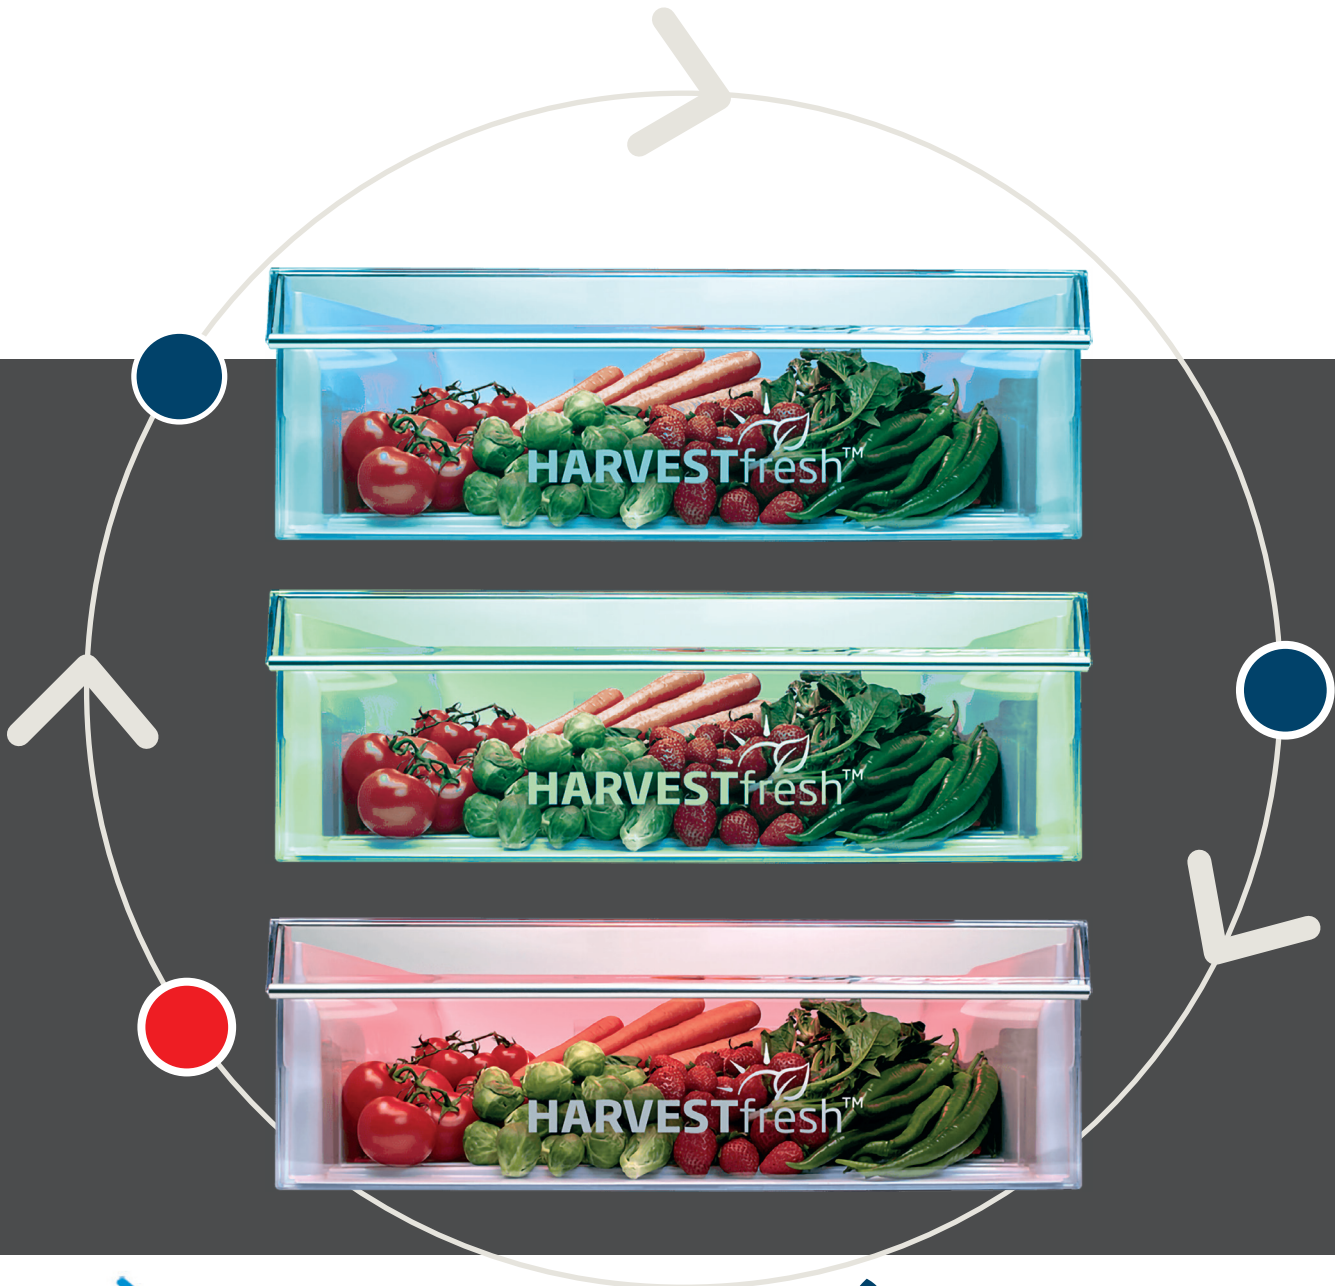

INSPIRED BY NATURE, POWERED BY LIGHT.

Even though they keep looking fresh, fruits and vegetables start to lose their vitamins when placed in the fridge. Thanks to innovative **HarvestFresh™ technology**, vitamins are preserved for longer*. Unique crisper technology developed for Beko fridges uses not one, but 3 efficient colours, that mimic the 24 hours sun cycle and natural sunlight. All of this so you can enjoy nutritious meals and a healthier lifestyle.

*Tested by Intertek based on Vitamin C and Vitamin A measurements in tomato, green pepper, carrot, spinach and celery directly exposed to the light technology compared to Day 0 conditions over a 5-day period.

EVERfresh+®

Beko **EverFresh+® technology** in your fridge is perfect for anyone who wants to live healthier, like a pro! People whose lifestyles revolve around healthy fruit and vegetables. Now, your fruit and vegetables won't go off after just a few days, they can sit comfortably in our special crisper compartment, staying fresh for up to 3 times longer*. The compartment's humidity is precisely controlled, and condensation is reduced via air channels, temperature variations are minimised, so your fruit and vegetables stay crisp and fresh. All this means that, thanks to Beko **EverFresh+® technology**, your fresh food is just as tasty as it is healthy for longer.

*Tested by SGS (compared to standard crisper for broccoli and lettuce)

a **beko** state of mind

INNOVATIVE TECHNOLOGIES

AEROflow™

GENTLE AIR DISTRIBUTION FOR LASTING FRESHNESS

Nature put its own expiration date on its gifts. The appearance and shape of food is related to its freshness, and keeping this freshness for longer requires gentle care, just like in nature. Now, Beko's gentle and even care for food inside the fridge offers long-lasting freshness. With less direct cold air blowing on fresh food, less dehydration occurs. The innovative Beko **AeroFlow™** cooling system minimises temperature fluctuations inside the fridge and reduces temperature differentiations between shelves with surrounding gentle air distribution for lasting freshness.

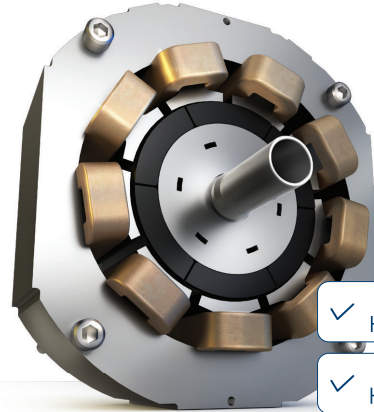

Since longer freshness of nutrients is a key element of healthy living, **AeroFlow™ technology** takes care of food inside the fridge in a gentler way. It surrounds food with evenly distributed cold air to keep them fresh, vivid and juicy for longer.

a **beko** state of mind

INNOVATIVE TECHNOLOGIES

✓ High Efficiency

✓ High Durability

✓ Low Noise Levels

LED Illumination®

**ProSmart™ Inverter
Compressor**

EVEN AND EFFICIENT ILLUMINATION

LED light covers the whole of the fridge, so you can find everything easily with less stress and energy. LED light on the ceiling of the fridge and LED strips on the side walls illuminate every shelf separately and provide full lighting on every part of the unit.

HIGH EFFICIENCY, HIGH DURABILITY, LOW NOISE

Don't pay lots of money for electricity bills just for a refrigerator that does the job. You can open the door as many times as you like, **ProSmart™ Inverter Compressor** technology will adapt and create fewer temperature variations, provide faster cooling with less energy, and allow your food to stay fresh for much longer. The compressor's design provides more durability while being 4 times quieter.

INNOVATIVE TECHNOLOGIES

Vacation Mode

High Capacity Refrigerators

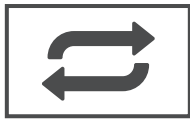

EXTRA ENERGY SAVING DURING VACATION

Vacation mode brings you an extra energy-saving option. Only the freezer compartment stays on, thus saving energy.

MAXIMUM SPACE FOR BIG FAMILIES

Big modern families need a lot of different foods to store. **Beko high capacity refrigerators** beautifully combine state-of-the-art design and functionality to offer maximum flexibility and ease of use. The high level of technology allows them to provide the ultimate freshness solutions for a healthier lifestyle.

TECHNICAL DETAILS

Reversible Door

Adjustable door direction to fit your kitchen layout.

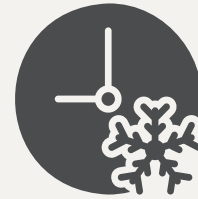

Some kitchen layouts require that refrigerator doors open in one direction and not the other. **Reversible Door** allows door hinges to be placed on both the left and the right of the unit, so decide which way your fridge doors open. Plus, you can double your cooling capacity by placing two fridges side by side and reversing the doors of one.

Easy access to ice cubes

Easy access to ice cubes

No more trying to pry ice cubes out of tiny spaces, causing stress and annoyance. The **ice cube tray** provides easy access to ice cubes so they easily drop into the tray with a simple twist.

Fast Freeze

Faster freezing for warmer pots

Putting warm pots into the fridge may cause other foods to spoil. To avoid this, a fan on the back wall blows cold air right onto the items placed on top, freezing them 10% faster compared to lower freezer shelves.

LAUNDRY COLLECTION

The Beko Laundry Collection, developed by one of the leading home appliance brands in Europe and proudly rooted in Turkey, reflects a deep commitment to design excellence, performance, and everyday practicality. With a strong European presence and decades of engineering expertise, Beko blends contemporary styling with thoughtful functionality across its full range of front load and top load washing machines, washer dryers, tumble dryers, and compact models. Each appliance is crafted with clean lines, well-balanced proportions, and user-focused detailing, ensuring seamless integration into homes of every size, from spacious family laundry rooms to modern urban living spaces.

Sustainability is central to the collection's identity, reflected through responsible material choices and manufacturing practices designed to reduce environmental impact. Many components are made using recycled plastics and long-lasting, durable materials that extend product life and minimize waste. Beko's production processes prioritise energy efficiency, resource-conscious engineering, and reduced packaging, reinforcing its commitment to sustainable innovation. The Laundry Collection brings together advanced garment-care solutions with environmentally mindful design, offering households the perfect combination of reliability, refined aesthetics, and long-term sustainability.

LAUNDRY COLLECTION

- FRONT LOAD WASHING MACHINES
- TOP LOAD WASHING MACHINES
- TWIN TUB WASHING MACHINES

WASHING MACHINES

The **Front Load Washing Machine** from the Beko Laundry Collection delivers a refined balance of design and practicality, offering efficient garment care in a clean, modern form. Its wide door opening, smooth profile, and streamlined controls make everyday laundry effortless while maintaining a contemporary look that complements any home.

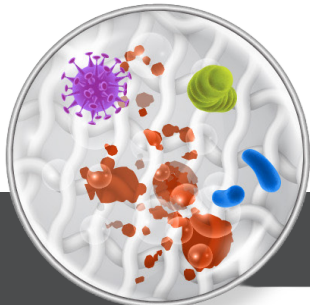

INNOVATIVE TECHNOLOGIES

STEAM^{cure} Hygiene+

STEAM-INFUSED STAIN TREATMENT

Admit it - you feel compelled to pretreat laundry whenever you see a stain. **SteamCure** technology does the work for you, applying steam to the stain before the wash, softening up dirt and making it easier to remove. It also helps to reduce wrinkles, so put away that iron – you've got less to do both before and after the wash now.

Pre Wash

After Wash

SteamTherapy®

Reducing wrinkles, shortening ironing time

No one enjoys ironing. Beko **SteamTherapy®** reduces wrinkles up to 58% in your laundry. Load a kilogram of clothes in your washing machine and the steam generator will inject intense steam into the drum to release the creases from cottons, synthetics and blended fabrics, all in the same cycle.

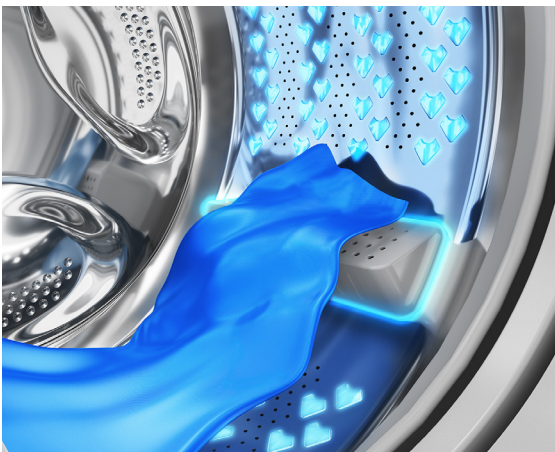

INNOVATIVE TECHNOLOGIES

Recycled Tub

STEAM-INFUSED STAIN TREATMENT

There are many things that nature calls her own. PET, the main material that goes in plastic bottles and hundreds of other modern materials, is not one of them, being solely responsible for millions of tons of waste that nature can't ever break down. In our drive to help the planet, we used 398 tons* of recycled plastic bottles in 2019 & 2020, transforming them into a durable, high-performance material that goes into the build of Beko's **RecycledTub™** washing machines and washer dryers. So you get the highest level of performance and durability while the planet breaths a little easier.

AquaWave

Wave-like drum action for gentler treatment

Washing and drying might take their toll on your clothes. So, here is AquaWave system's curved door glass and specially designed paddles that move the laundry in a wave-like action inside the drum, treating clothes gentler and improving the washing and drying performance. Next time someone compliments your clothes and you reply, 'What, this old thing?' you might be telling the truth.

a **beko** state of mind

INNOVATIVE TECHNOLOGIES

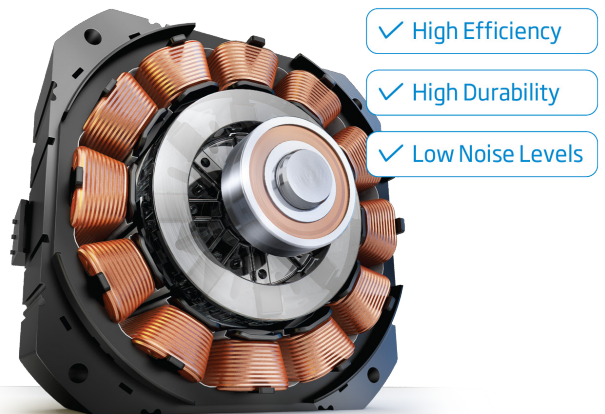

AutoDose

OPTIMUM DETERGENT, EFFICIENT CLEANING

Don't worry about using enough detergent, or even adding it before every wash. Just fill the liquid detergent and softener and let AutoDose sensors automatically dispense just enough of both, based on the type of fabric, load size and water level of each wash. The result? Effortlessly clean clothes every single time, without the constant hunt for the bottle of detergent.

INNOVATIVE TECHNOLOGIES

HomeWhiz

ProSmart™
Inverter Motor

QUICK AND SMART PROGRAM SUGGESTIONS FOR YOUR LAUNDRY

Stains and stress are gone forever with the most convenient washing machine yet. Now your washing machine tells you the programme you need for you !

HIGH EFFICIENCY, HIGH DURABILITY, LOW NOISE LEVELS

Don't stress about your energy bill or give yourself a headache every time you wash your clothes. Thanks to its brushless motor design, **ProSmart™** offers superior energy efficiency, lower sound levels and higher durability – all in a single machine, so you get the most from your machine without disturbing your monthly budget or piece of mind.

Stain Expert

Xpress super shot (14')

CLEANS 24 TYPES OF STAINS

You don't have to worry about stains anymore. At least 24 of them. Beko **StainExpert™** offers various washing temperatures, a range of tumbling actions, optimised wash durations and special soaking phases to give the best conditions for getting rid of stains and offers you a superior cleaning performance compared to normal cotton washes.

2 KG IN 14 MINUTES

You wear some clothes more often than others. This means you wash them quite often and you may need quicker programs. Beko **Xpress Super Short** program is ready when you are in a hurry. Its 14 minute cycle is convenient for those garments that are only a little bit dirty.

INNOVATIVE TECHNOLOGIES

Daily express

SilentTech™

FULL CAPACITY CLEANING IN 28 MINUTES

Sometimes you need a short and effective washing programme for a full load. Beko **Daily Express** is a daily program that can wash a full load of laundry in just 28 minutes at 30 °C, so it can be in and out the machine as quick as a flash.

QUIET AND PEACEFUL

We know what it's like when you need to do a laundry but you're worried the noise will wake the kids. Beko **SilentTech™**'s noise blocking technology keeps the washing noise to just 45dBA* with its enhanced noise insulation in the cabinet, specially developed S shaped side wall design and an algorithm to prevent unbalanced loads.

TECHNICAL DETAILS

DrumClean Program

Hygiene for your machine as well

Your washing machine will get the proper treatment with a special hygienic cleanse involving rinsing it in water heated up to 70°C with our DrumClean program. The program only operates when the drum is empty and ensures that there is no residue left behind in the machine.

Baby protect +

This 99.99% hygiene approved program offers a super rinsing cycle so that your little one's clothes aren't exposed to any dust or germs whilst they're being cleaned and become anti-allergic. The hygienic rinses mean that you can relax and know that thanks to Beko **Baby protect+** program there's nothing left to bring your baby out in a rash.

Fast+Function

Faster cleaning

With the push of a button, you can shorten the length of programmes by up to 55%, so now the washing can go as fast as you want it to.

DarkWash //Jeans

NO DETERGENT RESIDUE

Nobody likes it when detergent residue leaves unwanted and ungraceful white marks all over your jeans. Beko's **Dark//Jeans program** uses extra water, both during the washing and rinsing cycles, to make sure absolutely all detergent residue is removed from your clothes.

Outdoor / Sports Program

WATERPROOF FABRIC PROTECTION

You're constantly cleaning and re-cleaning your sweaty clothes, running the risk of damaging them from the constant washing. Not anymore. Beko's **Outdoor/Sports program** uses a low tumbling action that prevents friction within the drum, helping your clothes retain their waterproof features and breathability up to two times longer than with a conventional program. That's twice as many workouts!

XL Door

ERGONOMIC BIGGER DOOR

Selected Beko washing machines feature extralarge porthole doors. Even the bulkiest laundry like duvets, sheets, and bathrobes can be easily loaded through the enlarged door.

GentleCare™

KEEPS COTTONS SAFE

our favourite clothes need more care. Beko's GentleCare™ program washes your cotton clothes more gently, helping to protect their texture and colour and making sure they last longer. It also uses just half the energy of a 40°C wash*.

*Tested by 3rd party laboratories

Duvet/DownWear Program

FLUFFY GARMENTS PROTECTION

Are your precious garments going to lose their fluffiness when you wash them? Not on our watch! With Beko's **Duvet/Down Wear program** in your washing machine, you can now wash your favourite down feather coats and duvets with the ultimate care they deserve. Thanks to a special spinning cycle, they won't lose any of their volume or cosiness.

Woolmark® Apparel Care

ULTIMATE WOOL CARE

You probably hesitate to wash your wool garments in the machine. Luckily, Beko washing machines have **Woolmark® Apparel Care** registration which takes care of your machine-washable precious wools.

OptiSense®

OPTIMUM WASH WITH SMART SENSORS

OptiSense® technology in your Beko washing machine optimises the water, detergent, energy and also time consumption. 3 smart sensors automatically monitor your laundry, 1 extra smart sensor looks after your machine, helping it to last longer.

Drum Light

PERFECT ILLUMINATION

Beko washing machines have a **drum light** which perfectly illuminates the inside of the drum, letting you see inside better and allowing you to make sure you're not leaving any items inside.

Auto Program

SENSE WHICH FABRIC AND SELECTS PROGRAM ACCORDINGLY

Washing your clothes can be easier than you imagine. Beko **Auto Program** will automatically work out what type of fabrics you've put in, how many clothes there are and choose the right washing program - cotton, synthetics, blended, all done!

Hygiene+ Program

HYGIENIC CLEANING AT ANY TEMPERATURE

With Beko **Hygiene+ Program**, you can get premium hygienic cleaning results for all your laundry at any temperature (20°C - 90°C) with custom drum movements, sensitive temperature control and additional rinse and spin cycles. The 60°C cycle eliminates 99.9% of allergens and approved by Allergy UK.

INNOVATIVE TECHNOLOGIES

Wash&Wear®

1 KG IN 1 HOUR

Was that date really today? You've got no clean clothes, your lucky top is in the dirty basket and you've got to catch the train in an hour. Fortunately for all of you last-minute-date types, the **Wash & Wear®** program in your Beko washer dryer can get a shirt washed and dried in the machine in barely no time at all. Choose from temperature settings of cold- 20°- 30°C and get up to 1kg (5 shirts) washed and completely dried in an hour. You go in the shower, your favourite shirt goes in the wash.

INNOVATIVE TECHNOLOGIES

7kg Wash&Dry

7KG LAUNDRY ON ONE GO

Beko washer dryer will allow you to wash and dry up to 7 kg of laundry in one go. The program automatically adjusts the settings to achieve perfect washing and drying results.

INNOVATIVE TECHNOLOGIES

Hygiene+ Wash & Dry Program

HYGIENIC CLEANING AT ANY TEMPERATURE

With Beko **Hygiene+ Program**, you can get Premium hygienic cleaning results for all your laundry at any temperature (20°C - 90°C) with custom drum movements, sensitive temperature control and additional rinse and spin cycles. The 60° cycle eliminates 99.9% of allergens and approved by Allergy UK.

TUMBLE DRYERS

The **Tumble Dryer** offers dependable drying performance wrapped in a clean, contemporary exterior. Designed for households that need consistent, easy-to-use drying capability, it pairs well with any washing machine and adds a polished, cohesive look to the laundry space.

INNOVATIVE TECHNOLOGIES

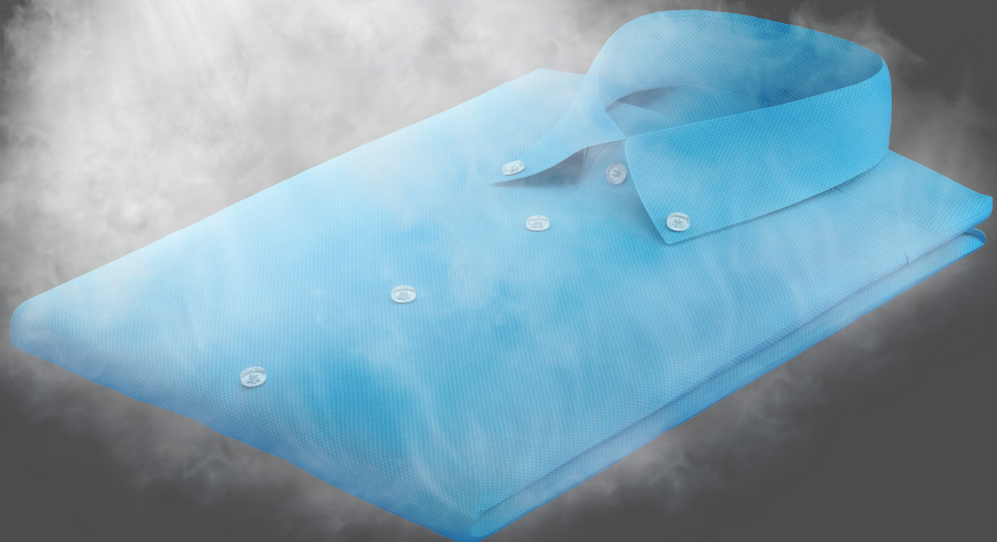

IRONfinish

IRONING TECHNOLOGY INSIDE, READY TO WEAR* CLOTHES OUTSIDE!

Ironing your clothes everyday can be tiring. Beko's **IronFinish** Dryers take care of the hassle for you, getting your clothes completely dry and ready to wear. It even works the same as a regular iron, infusing water and steam into your clothing for the ideal time at the ideal temperature, so fabrics come out smooth and ready to wear, just as if you'd ironed them! Let your dryer do your ironing for you so you can get on with the more important things in life!

*Ready to wear results from independent testing obtained for casual shirts with 100% cotton, 100% polyester, 100% viscose and a 56% cotton-44% polyester blend in the iron finish programme. Irons up to six shirts in one cycle.

SilentTech™

Quiet and peaceful

We know what it's like when you need to do a laundry but you're worried the noise will wake the kids. Beko **SilentTech™**'s noise blocking technology keeps the washing noise to just 45dBA* with its enhanced noise insulation in the cabinet, specially developed S shaped side wall design and an algorithm to prevent unbalanced loads.

A folded blue towel is placed on top of the washing machines.

DISHWASHER COLLECTION

The Beko Dishwasher Collection, created by one of the leading home appliance brands in Europe and rooted in Turkey, is designed to bring efficiency, elegance, and convenience into modern kitchens. The collection includes freestanding, built-in, slimline, and compact dishwashers, each crafted with clean lines, balanced proportions, and a refined contemporary aesthetic. Designed to suit a wide range of kitchen layouts and household sizes, these dishwashers integrate seamlessly into everyday life while maintaining a cohesive and modern visual identity.

Sustainability plays a central role in the Dishwasher Collection, reflected in responsible material choices and environmentally conscious manufacturing practices. Durable, long-lasting components and the use of recycled materials help reduce waste and extend product life, while resource-efficient production supports a lower environmental footprint. With a strong focus on practicality and long-term reliability, the Beko Dishwasher Collection delivers dependable performance and thoughtful design, supporting a more sustainable approach to daily living without compromising on style or comfort.

DISHWASHERS

The **Beko Freestanding Dishwasher** offers a practical and stylish solution for everyday dish care, designed to suit a wide range of kitchen layouts. With its clean, modern design and flexible placement, it blends seamlessly into both contemporary and traditional spaces. Built with durability and responsible materials in mind, it reflects Beko's commitment to reliable performance and sustainable living.

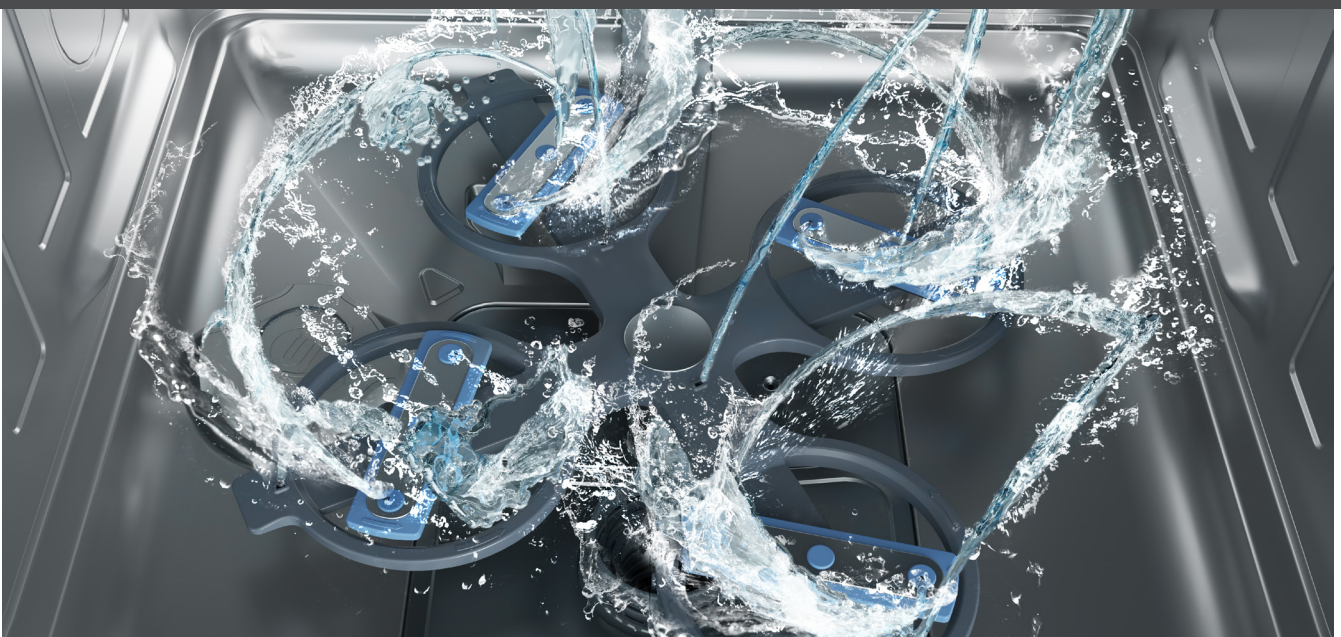

INNOVATIVE TECHNOLOGIES

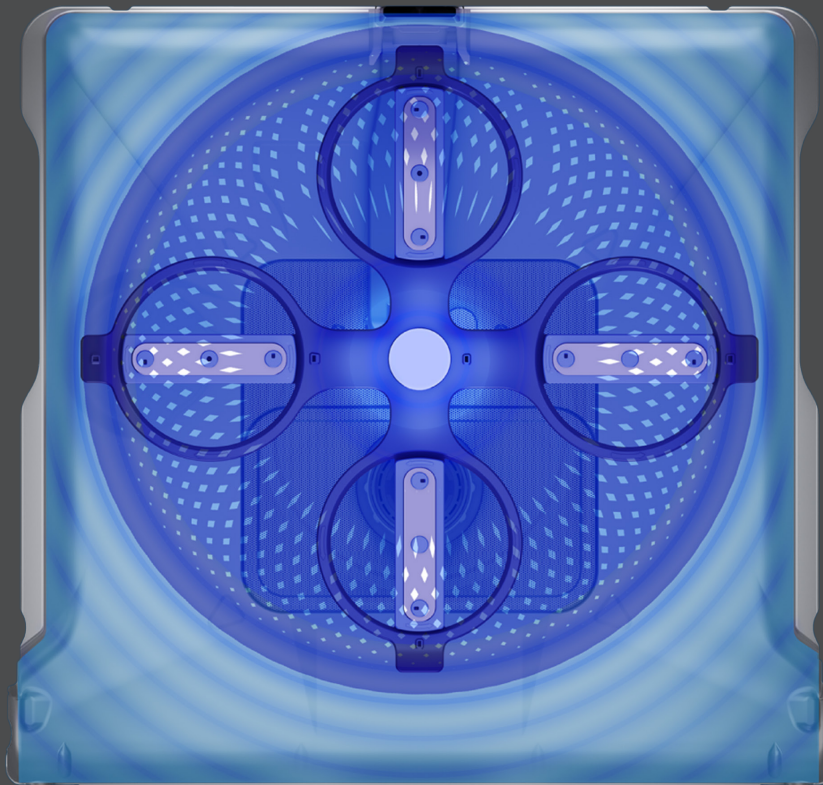

POWERIntense®

**MAXIMUM COVERAGE, UP TO 5 TIMES BETTER
CLEANING***

Get the results you dream of for ultimate cleaning with your dishwasher, surpassing your expectations with new PowerIntense technology compared to our past advancements. 4 satellite spray arms provide bidirectional movement to deliver effortless cleaning for all cycles. Providing effective water spraying while making sure the water reaches every spot even the most hard-to-reach places with scrub effect. With innovative spray arm system, effective residue-removing performance is accomplished. With PowerIntense, every zone is an intensive zone, leaving your dishes spotlessly clean!

*Based on 3rd party test report, PowerIntense Spray technology is compared to reference model equipped with CornerIntense Spray, with Intensive 70 program.

SelfDry

Provide natural airflow by auto-opening the door at the end of the cycle, delivering perfectly dry, streak-free dishes without any extra energy.

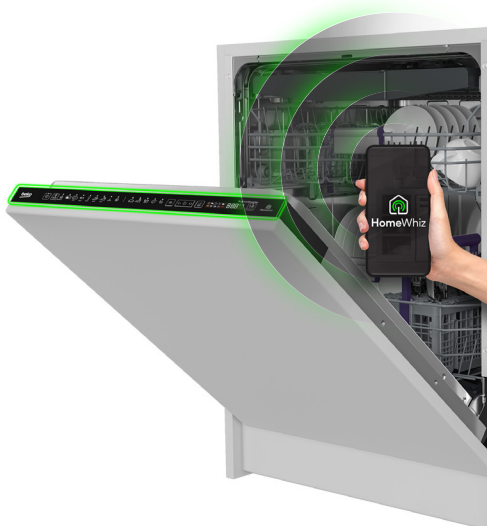

INNOVATIVE TECHNOLOGIES

AutoDose

THE RIGHT AMOUNT OF DETERGENT FOR EFFICIENT CLEANING

Forget worrying about using enough detergent, or even adding it before every wash. Just fill your dishwasher with liquid detergent and let AutoDose automatically dispense just enough of it for a month. The result? Sparkling clean dishes every single time, without the constant hunt for the detergent bottle.

HomeWhiz®

Let your dishwasher tell you which programme to load!

Beko's Smart Dishwashers take all the difficulty of dishwashing out of the equation as your machine itself tracks how to clean and organize your load! Whether you're cleaning pots and pans, wine glasses, or all of the above, Beko's Smart Dishwashers will tell you how to clean it and all you have to do is monitor it from your phone! On top of that it notifies you when you're running low on detergent so you'll never have to run out last minute ever again – truly a dishwasher that does it all!

a **beko** state of mind

INNOVATIVE TECHNOLOGIES

HygieneIntense

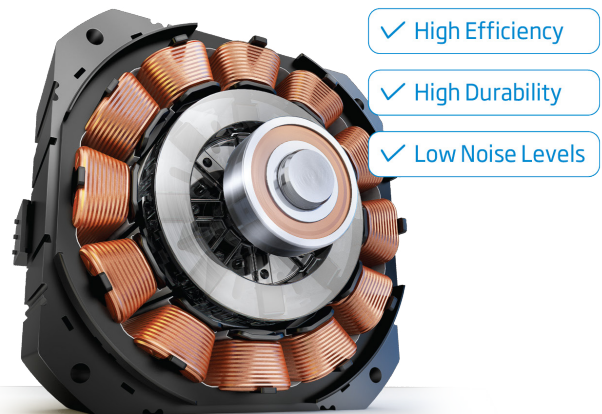

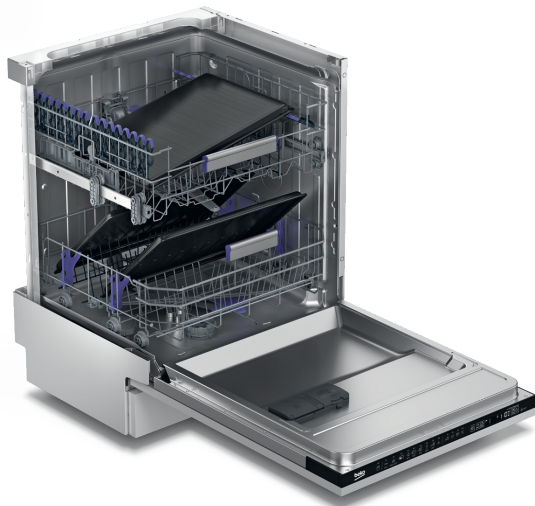

PURIFYING POWER OF HIGH TEMPERATURES FOR 99.999 % HYGIENE

As we all get more used to eating at home all the time, you've probably noticed that the dishes begin to pile up, particularly in larger families. Our research indicates as well that people trust dishwashers more than washing by hand both to get their dishes cleaner and to take away all that hassle. Inspired by the purifying power of hot springs, our new **Hygiene Intense** Line Dishwasher provides bacteria & virüs* elimination for your dishes in a safe and convenient way at home. The steam mist rises up from these high temperatures to cover every inch of the dish. Then the dishes are rinsed with purifyingly hot water. All this means that 99.999% of bacteria and viruses* are completely eliminated for perfectly hygienic results.

*Killing: Enterococcus faecium, Bovine Coronavirus, Murine Norovirus

INNOVATIVE TECHNOLOGIES

TrayWash™

ProSmart™ Inverter Motor

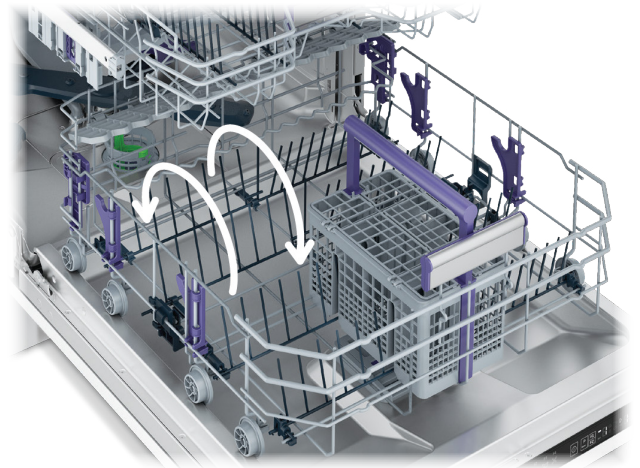

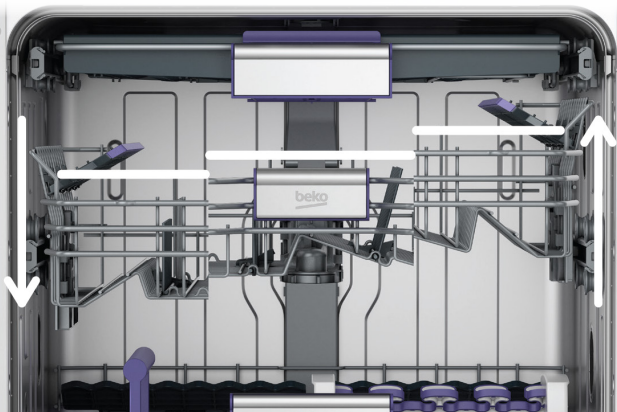

EFFORTLESS CLEANING WITH TRAYWASH™

The TrayWash™ feature incorporates a special design that lets you place and secure two trays in the lower basket, and one in the upper basket. Plus, the high-pressure TrayWash™ function gets your trays looking as good as new.

HIGH EFFICIENCY, LOW NOISE

Want to save on your electricity bills and have a quieter, more efficient dishwasher? The **ProSmart™ Inverter Motor** in your Beko dishwasher reduces friction and is twice as quiet*. With ratings of up to A+++ , it'll help you save on water and electricity too.

3 Position Acrobat System

Easy Fold Plate Support

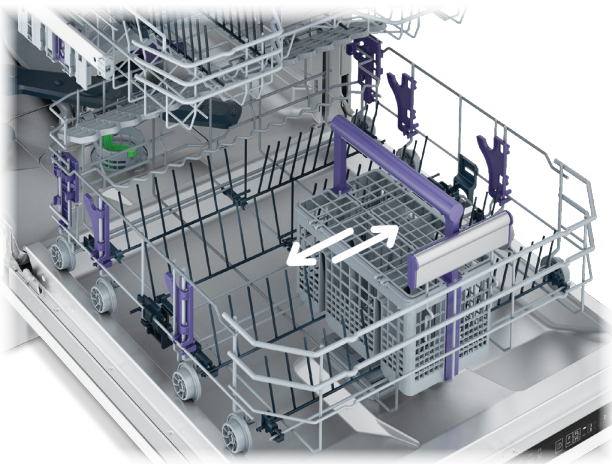

FLEXIBLE LOADING OPTIONS

The upper basket of Beko Dishwashers now features a **3-position** loaded adjustment mechanism, so you can load different sized dishes easily. So, no matter how big your serving plates are, loading them into your dishwasher won't be a problem.

FOLDING TINES

Lower basket plate support tines can be easily folded away to create space for large pots and pans.

INNOVATIVE TECHNOLOGIES

Sliding Cutlery Basket

Fast+ Function

COOKWARE GAME

The cutlery basket's improved flexibility helps you organise the dishes in the lower basket more easily.

CLEAN DISHES AND GLASSES IN A FLASH

Sometimes you don't have time to wait for a full wash cycle to run before you have clean plates and glasses. The **Fast+ function** makes the washing cycle faster up to 3 times* with optimum performance, meaning you can wash and serve in no time at all.

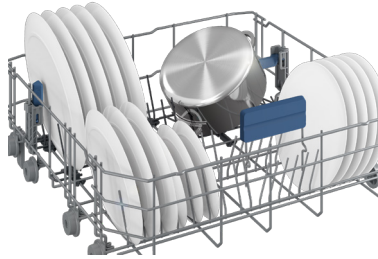

TECHNICAL DETAILS

Quick&Shine®

Perfect cleaning in just 58 minutes

Quick & Shine® is a unique program that guarantees exceptional cleaning and drying performance on soiled dishes. The program cleans and dries your dishes in just 58 minutes and provides perfect shine.

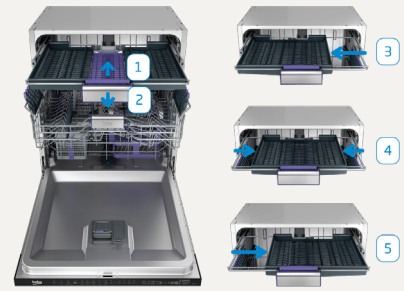

SteamGloss

Water-mark-free glasses

The table's set but your glasses look like they've got water marks on them. **SteamGloss's** 10-minute long extended heat cycle makes sure that glasses shine like they're brand new. With 23%* shinier glassware and 30%* shinier china, your next dinner table will dazzle anyone around.

*Tested by 3rd party laboratories

FlexiDrawer®

Flexible enough to suit you

The cutlery tray in Beko Dishwasher is now fully flexible. With 5-position adjustment, it allows enough space for longer stemmed glasses in the basket below.

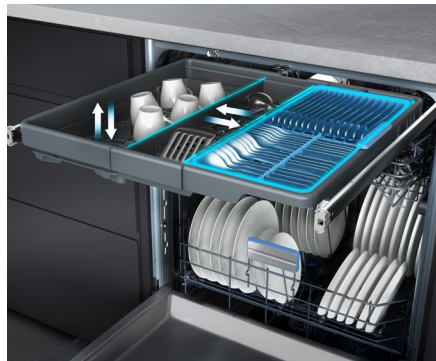

TECHNICAL DETAILS

New Flexible 3rd Rack

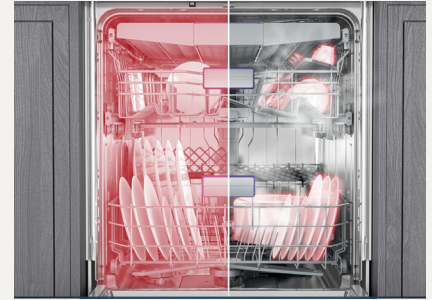

Designed for all your cutlery, cups and long utensils with adjustable trays, while still allowing space for tall glasses in the upper basket.

SensorAdapt

AI-Powered Cleaning for Every Wash provides spotless dishes with up to 50%* less energy consumption and wash cycles that are up to 50% faster, saving water, energy, and time without compromising on cleanliness.

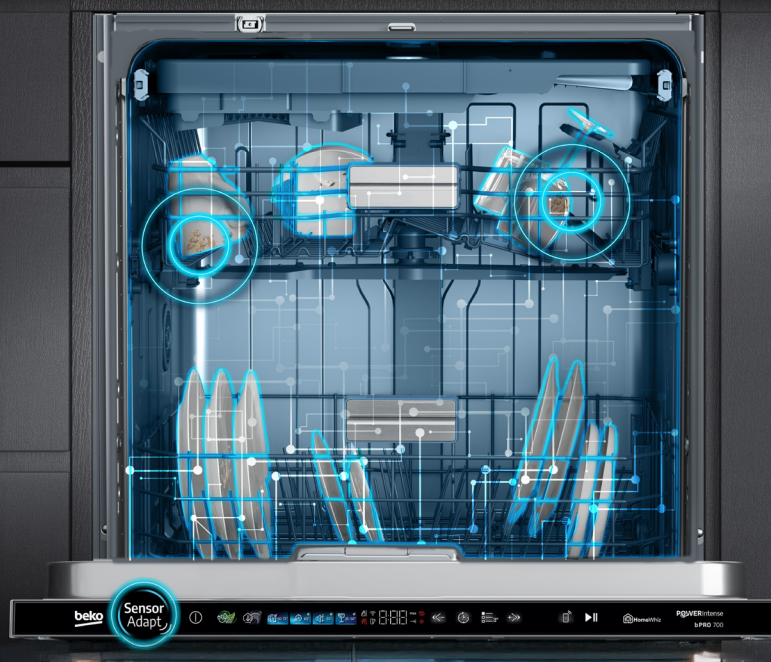

*Based on internal test report compared to Beko-BDIN38560C reference model. (Intensive 70° Program)

TargetDry

Only applies heat onto the dishes to save up to 25% energy across all programs* and speed up the drying process.

*Based on internal test report, compared to same capacity 16 place setting standard tub dishwashers without TargetDry technology.

Flexible Half Load

WHY WAIT TO BE FULLY LOADED?

The **Flexible Half Load** option allows you to load the upper and lower racks separately for easy and economical washing. So, now there's no need to wait for both racks to be fully loaded before you run your dishwasher!.

Auto Program

TAKE THE GUESSWORK OUT OF CHOOSING YOUR PROGRAM

Beko's **Auto Program** smart sensors detect how soiled your dishes are and determines the optimum wash cycle automatically. This means your dishes come out sparkling clean using just the right amount of water and energy.

AquaFlex®

FLEXIBLE WASHING FOR DIFFERENT MATERIALS

AquaFlex® technology provides efficient and gentle washing at the same time. It adjusts water pressures to the lower and upper baskets, providing excellent washing and drying results for all kind of dishes, even plastics.

Clean&Shine™

CLEAN AND DRY IN NO TIME AT ALL

The **Clean&Shine™** program provides superior washing and drying performance, not only for lightly soiled items, but for normally soiled pots and dishes as well, in just 90 minutes.

Eco 50°C Program

ECO-FRIENDLY WASHING

A program that cares for the environment as well as your dishes! The **Eco 50°C program** uses reduced amounts of energy to clean a full load of normally soiled dishes.

Time Delay

TIMED TO PERFECTION

With the **Time Delay** function, you can delay your wash cycle by 3, 6 or 9 hours, and up to 24 hours on some models. This means you can plan your wash times to suit you, and take advantage of cheaper electricity rates at nights.

Fingerprint Free Stainless Steel

EASY-CARE SURFACES

Thanks to a special coating on the stainless steel surfaces of selected models, your dishwasher always looks clean, shiny, and fingerprint-free.

Child Lock

SAFE FOR LITTLE HANDS

Wandering little hands have a tendency to cause mischief, so the **Child Lock** feature prevents any settings being changed mid-cycle should a button be pressed or a dial be turned

Auto Tablet

THE BEST DRYING RESULTS

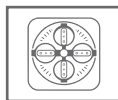

The **Auto Tablet** sensor detects the amount of rinse aid and sets the duration of the drying cycle. This means you get the best drying results without having to lift a finger.

COOKERS COLLECTION

Superior Cooking Performance **Beko freestanding cookers** are designed to bring professional efficiency into the home, featuring innovative technologies that ensure perfect results every time. Many models are equipped with High-Efficiency Gas Burners, which utilize a special design to cook up to 35% faster while using 25% less gas. For baking and roasting, Beko's AeroPerfect™ and 3D Cooking systems provide uniform hot air distribution throughout the entire cavity, minimizing temperature fluctuations and allowing you to cook multiple dishes simultaneously without flavors mixing. Whether you are using a compact 60cm model or a spacious 90cm range, these cookers provide the thermal precision needed for everything from delicate pastries to large family roasts.

Safety and Effortless Maintenance Understanding the needs of a modern household, Beko integrates advanced safety and cleaning features to make kitchen life stress-free. The Gas Safety device provides peace of mind by automatically cutting off the gas supply if a flame is accidentally extinguished by a draft or a boiling-over pot. Maintenance is equally simplified with SteamShine® cleaning technology, which uses steam to soften grease and food residue, allowing you to wipe the interior clean without harsh chemicals. Finished in premium materials like stainless steel or sleek black enamel, and featuring Halogen Illumination for a clear view of your food, Beko cookers combine long-lasting durability with a contemporary aesthetic that elevates any kitchen design.

- 50CM COOKING RANGES

COOKERS

The Beko **Freestanding Cookers** offers a practical and stylish solution for everyday meal preparation, designed to suit a wide range of kitchen layouts. With its clean, modern design and flexible placement, it blends seamlessly into both contemporary and traditional spaces. Built with durability and high-performance technology in mind, it reflects Beko's commitment to reliable cooking results and sustainable living.

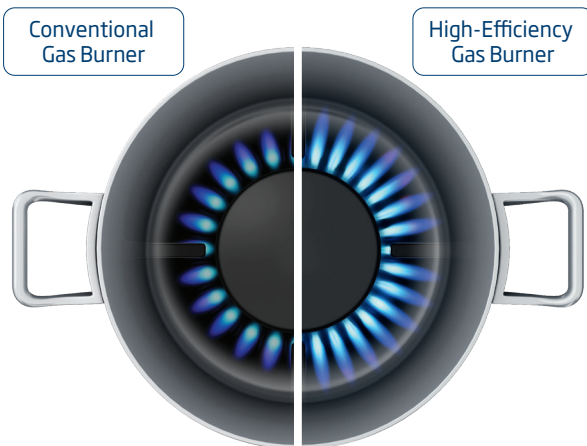

INNOVATIVE TECHNOLOGIES

PizzaPro™

PIZZERIA-STYLE PIZZA IN JUST 5 MINUTES

For pizzeria-style pizza at home, Beko's **PizzaPro™** gets the oven temperature up to 310°C, giving the pizza a crispy crust while keeping the toppings nice and juicy. With the pizza stone, your pizza is ready in just 5 minutes. Plus, a temperature as high as that works for other dishes as well.

High-Efficiency Gas Burners

Faster and more efficient cooking with special burner design

Don't let a busy day cost you a healthy meal. Now you can cook every meal faster and more efficiently on the hob. **High Efficiency Gas Burners** use less gas and cook more quickly than standard burners. So even when you're short on time, you can put your favourite meals on the table fast.

INNOVATIVE TECHNOLOGIES

**TwinFan™
Cooking**

SoftClose® Door

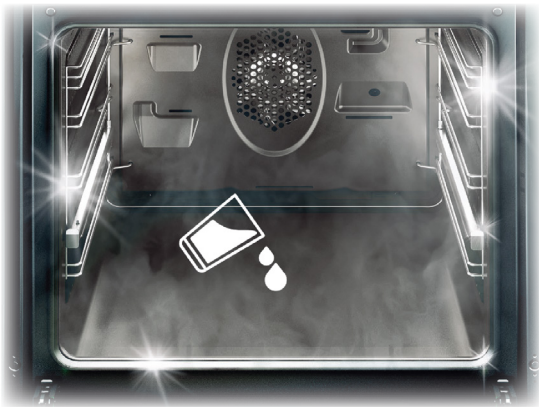

COOK MORE IN NO TIME

If you're cooking for a crowd and are running out of time, this feature is here to help. Beko's **TwinFan™ technology** enables you to cook large portions up to 112 L in no time. The dual fans spread heat evenly throughout the oven, and provide better air circulation, giving you faster preheating and cooking times compared to single fan ovens.

SMOOTH AND QUIET

When your hands are full trying to get a tray full of food in the oven, it can be tricky keeping the oven without it slamming shut. The **SoftClose®** feature in Beko ovens uses newly designed hinges to make sure oven doors close softly and quietly.

SteamShine® Cleaning

DISSOLVE GREASE AND STAINS

Forget about scrubbing and scraping grease and burnt-on food from your oven. With Beko **SteamShine® Cleaning**, your oven does the hard work for you. Simply pour some water into the tray, and as the water evaporates, it softens food leftovers in your oven, making it easier to clean.

Telescopic Shelves

SAFE AND EASY PULL-OUT

If you don't want to ruin the moment by struggling to get your culinary creation out of the oven, Beko's **telescopic shelves** will help you retrieve heavy dishes from the oven safely and easily. The full extension telescopic shelf comes out of the oven completely for maximum ease, while partial telescopic shelves come 2/3 of the way out.

- Product Color: Black
- Touchcontrol LED Display
- Airfry Function
- Steam Shine Cleaning
- Easy to clean & removable full glass inner
- Triple glass door
- Side racks, 5 levels
- Interior lighting
- Cooling Fan
- Bottom compartment
- Multifunctional Cooking
- 8 functions
- Electric Oven & Grill
- Soft Door Close

Dimensions

- H x W x D: 85.0 x 60.0 x 60.0 cm

Performance

- Voltage (v) 220-240
- Frequency (Hz) 50/60

Hob Configuration

- 3 Gas + 1 Wok Hob
- Front Left: 3,3 KW
- Rear Left: 2 KW
- Front Right: 1 KW
- Rear Right: 2 KW
