NEOfrost™ Dual Cooling

Faster cooling for longer freshness

It's important to keep the food fresh for longer in the refrigerator. Also, it is difficult to keep fish in the freezer together with a lovely cake in the fridge without their odours mixing. Beko's separate cooling system technology for each compartment provides faster cooling by maintaining ideal air flow and optimal temperatures with an optimal level of humidity in both the freezer and the fridge. The result is the food stays fresh for longer with no frost build-up or odour transfer.

ProSmart™ Inverter Compressor

✓ High Efficiency

✓ High Durability

✓ Low Noise Levels

High efficiency, high durability, low noise

Don't pay loads of money for electricity bills just for a refrigerator that does the job. You can open the door as many times as you like, ProSmart™ Inverter Compressor technology will adapt and create fewer temperature variations, provide faster cooling with less energy, and allow your food to stay fresh for much longer. The compressor's design provides more durability while being 4 times quieter.

Wash&Wear®

1 kg in 1 hour

Was that date really today? You've got no clean clothes, your lucky top is in the dirty basket and you've got to catch the train in an hour. Fortunately for all of you last-minute-date types, the Wash&Wear® program in your Beko washer dryer can get a shirt washed and dried in the machine in barely no time at all. Choose from temperature settings of cold- 20°-30°C and get up to 1kg (5 shirts) washed and completely dried in an hour. You go in the shower, your favourite shirt goes in the wash.

BUILT-IN DISHWASHERS

- Fully Integrated Built-In Dishwashers

AquaIntense®

Intense cleaning performance for the dirtiest dishes

Stubborn dirt and hard-to-clean dishes? No problem! AquaIntense® creates a powerful cleaning zone with intense water pressure and offers up to 5 times better cleaning performance, so even the toughest pots and pans get a thorough clean. No matter what you put your cookware and dishes through in the kitchen, with AquaIntense®, they'll come out spotless every time.

*Tested by internal laboratories on an intensive 70°C program

LedSpot™ / LedSpot +™

An update at a glance

Having a dishwasher so quiet you can't even tell it's running is no bad thing, but a little sign that all is as it should be can't hurt either. Beko LedSpot lets you know whether your dishwasher is running or not with a red light at the base of the appliance. LedSpot+ even lets you know how far through the wash cycle your dishwasher is.

- 60cm Built-In Gas Oven
- 60cm Built-In Microwave

AEROperfect™

Perfect hot air distribution, meals cooked to perfection.

When hot air isn't evenly distributed throughout your oven, you end up with food burnt at the edges or uncooked in the middle. AeroPerfect™ technology takes its inspiration from aircraft designs, an industry which understands aerodynamics better than any other. Using this expertise, AeroPerfect™ uses a constant stream of even airflow all around the oven, all the while minimising temperature fluctuation, so your food is cooked to absolute perfection every single time. All you need is to put your food in the oven and enjoy the perfect results!

Steam Assisted Oven

Better baking & roasting with external water tank

Beko ovens with the Steam Assisted Cooking feature help you cook delicious pastries, bread, meat & poultry. Cook easily fluffy pastries and bread with a crispy crust and juicy meat & poultry. During the cooking cycle, water is poured in the cavity directly from the water tank to bottom of oven cavity and steam forms. That makes it safe and convenient to put the water in the easy-to-fill water tank any time during cooking instead of pouring it into the bottom of the oven to create steam. It enables it to cook longer with steam, which prevents the meat & poultry from drying out during roasting.

LED Screen

LED screen enables you to set cooking time easily. With the start & delay function you can set the time you want your meal to be ready at.

Direct Access Premium

Led-illuminated controls that allow the hob to go totally black when switched off. Has separate controls for each zone with 15 power levels slider, timers, Automatic cooking function, Booster and Hob - Hood Connectivity. Comes with child lock.

Slim Touch Control

Touch control buttons on slim line design allow choosing from 9 power levels. Timer can be set for each zone individually. Comes with child lock function.

VitroCeramic Hobs

Stylish VitroCeramic Hobs look great in nicely designed kitchens, as their neat glass plate seamlessly integrates with the furniture. They work by heating coiled elements beneath the toughened glass surface and radiating that heat up to the pan.

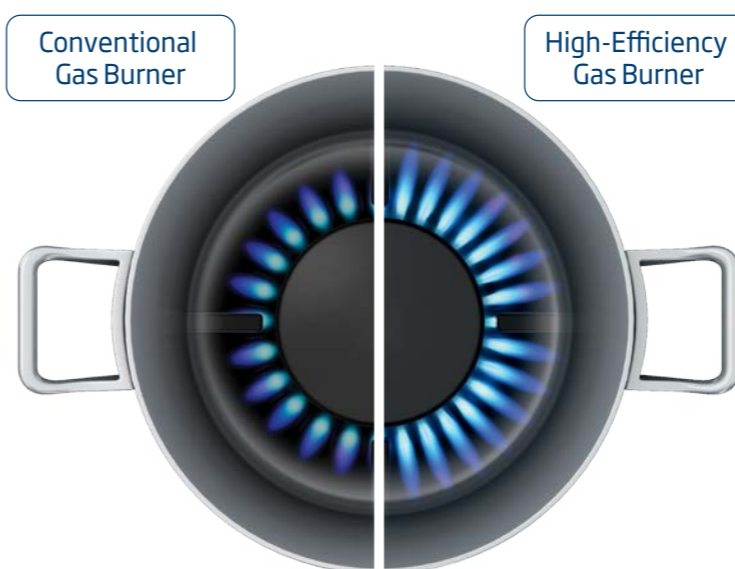

Gas Hobs and Hotplates

For traditional cooking, a gas hob works best. Besides the normal heating and cooking, you can always use the open flame to roast peppers, brown tortillas or stir-fry in a traditional rounded-bottom wok. If your kitchen is not fitted with gas, you can always opt for a Hotplate. It only requires electricity to work and is more solid, reliable and cheaper than ceramic hobs.

High-Efficiency Gas Burners

Faster and more efficient cooking with special burner design

Don't let a busy day cost you a healthy meal. Now you can cook every meal faster and more efficiently on the hob. High Efficiency Gas Burners use less gas and cook more quickly than standard burners. So even when you're short on time, you can put your favourite meals on the table fast.

High Power Wok Burner

Maximising cooking power

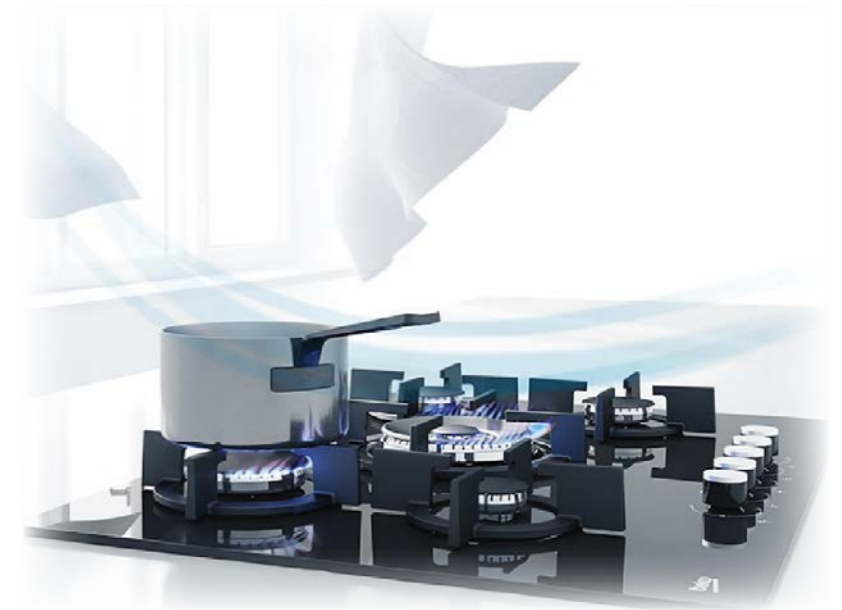

If you like stir-fry at home, you need a high performing hob. With the Beko High Power Wok Burner you get an extremely intense flame at a hot 5Kw. This allows heat to be more evenly distributed across the bottom of the wok. So, faster noodles with improved cooking performance.

Gas Safety

Automatic gas cut-off

It's easy for a flame to go out when you're not around, unleashing dangerous gas into the house. The Gas Safety feature will detect when a burner flame is extinguished by an over-boiling pot or a gust of wind, and shut off the gas supply. No leaks, no worries.

Cast Iron Pan Support

No slip ups

Cast iron pan supports enhance the stylish and professional look of your hob, while also providing maximum stability. So, you can use pots and pans of any size without the risk of tilting or sliding.

Tempered Glass Surface

Scratch-resistant surface & sleek design

Style meets durability in Beko's Glass Surface hobs with their sleek design and easy-to-clean, scratch resistant surface.

Intensive Ventilation

More ventilation power

Grilling and frying can create intense odours, so you need ventilation to eliminate these. Beko Intensive Ventilation is more efficient than average cooker hoods. It has a booster setting 67%* more powerful than the maximum setting, so you can use it to get rid of strong smells when you're grilling and frying.

*Tested by internal laboratories

Air Cleaning Mode

Hourly hands-free ventilation

Like cooking tasty food but not so keen on the strong odours they can leave behind? Beko has just the solution. The Air Cleaning Mode helps to quietly get rid of kitchen odours, without using much energy. Every hour, the hood automatically switches on for 10 minutes at minimum speed, totally refreshing the air in the kitchen.

Led illumination

Your dish under the spotlight

It's important to see exactly what you're cooking clearly, and kitchen lighting is often gear more towards mood than practicality. With Beko's LED Illumination, your whole hob is bathed in beautiful light, and your cooking made crystal clear. Plus the LED saves energy too.

Auto Shut Down

15 Minutes of automatic ventilation

After slaving away in a hot kitchen, you want to relax on the sofa, no worry about getting the cooking smells out of your kitchen. Beko Auto Shutdown technology lets you switch on your extractor hood for 15 minutes, after which it automatically shuts itself off.

Dishwasher Safe Filters

Easy cleaning and degreasing

The Ultimate Glass Care 40°C is a special program designed for glasses, gently washing them at 40°C.

Filter Saturation Light

A gentle reminder to change the filter

Forgetting to change the filters of your hood may cause clogged filters which reduces performance. That's why we've fitted a useful Filter Saturation Light and Buzzer to remind you change the filters when required. Your hood measures the interval between your last clean to minimise the amount of effort you have to put in to get rid of any grease residue.

Carbon Filters

Say goodbye to odours

With houses coming in all shapes and sizes, you might not have a chimney outlet. Beko's built-in hoods have carbon filters to keep the air circulating and get rid of any unwelcome cooking odours. So, with or without a chimney, your kitchen will always feel fresh.

- Lighting Efficiency Class: G
- Grease Filtering Efficiency Class: C
- Average energy consumption per year: 106.0 KW

DIMENSIONS

- H x W x D: 74.0 x 59.8 x 49.0 cm

60 CM INCLINED CHIMNEY HOOD

BHCA66741BBHS

Dishwasher Safe Filters

Touchcontrol

FUNCTIONS

- Colour: Black
- Hood Type: Inclined
- Intensive Ventilation
- Air-cleaning Mode
- Auto Shut-down
- Touch control
- Number of Light Bulbs: 2
- Light Bulb Power (W): 3

TECHNOLOGIES

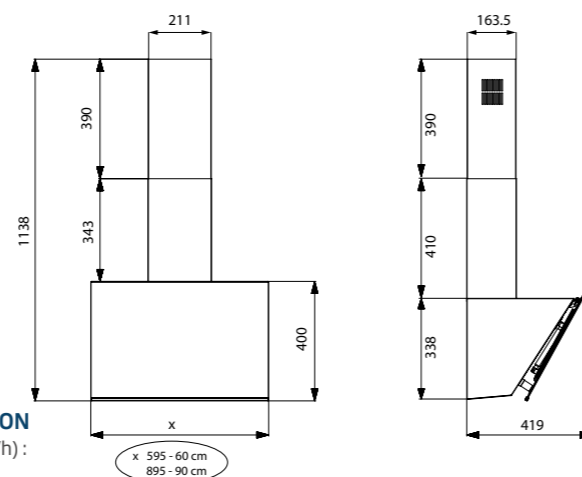

- Filter Saturation Indicator
- Dishwasher-safe Filters: 2
- Carbon Filters
- Number of Grease Filters : 1

PERFORMANCE & CONSUMPTION

- Maximum Ventilation Capacity (m³/h) : 445 cu meters/hour
- Minimum Ventilation Capacity (m³/h) : 220 cu meters/hour
- Intensive Ventilation Capacity (m³/h) : 712 cu meters/hour
- Minimum Ventilation Noise Level (dBA) : 44 dBA
- Maximum Ventilation Noise Level (dBA) : 60 dBA
- Intensive Ventilation Noise Level (dBA) : 70 dBA

DIMENSIONS

- H x W x D: 113.8 x 59.5 x 41.9 cm

90CM WALL MOUNTED PYRAMID CHIMNEY HOOD

CWB 9441 XN

Dishwasher Safe Filters

MAIN FEATURES

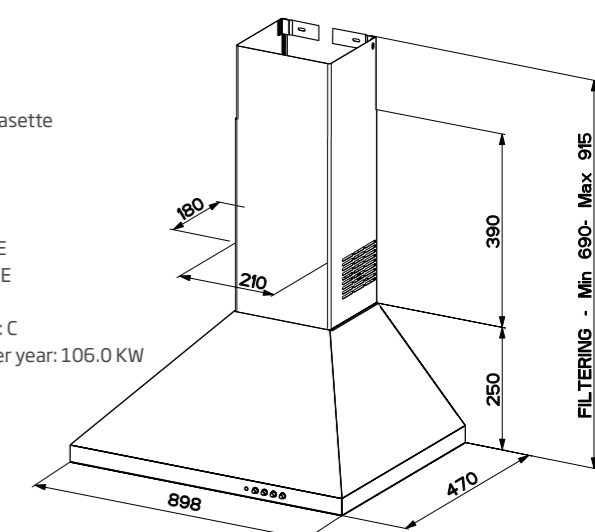

- Color - Inox
- Maximum ventilation capacity: 400 cu meters/hour
- Maximum sound power level: 64 dBA
- Mechanical Control - Mechanical Control
- Illumination Type: LED
- Number of Motors: 1
- Number of Grease Filters: 3
- No. of Power Levels: 3
- Type Of Grease Filters: Metal - Casette
- Dishwasher Safe Filters
- Charcoal Filter: Optional

EFFICIENCY RATINGS

- Overall Energy Efficiency Class: E
- Fluid Dynamics Efficiency Class: E
- Lighting Efficiency Class: G
- Grease Filtering Efficiency Class: C
- Average energy consumption per year: 106.0 KW

DIMENSIONS

- H x W x D: 48.0 x 90.0 x 27.0 cm

90 CM TELESCOPIC CHIMNEY HOOD

MAIN FEATURES

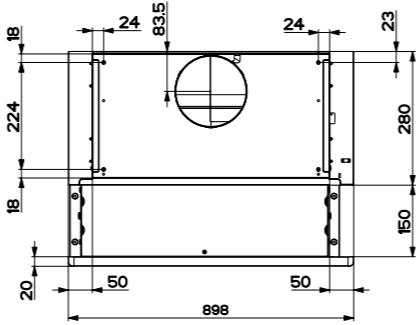

- Color - Inox
- Maximum ventilation capacity: 420 cu meters/hour
- Maximum sound power level: 69 dBA
- Mechanical Control - Mechanical Control
- Illumination Type: LED
- Number of Motors: 1
- Number of Grease Filters: 2
- No. of Power Levels: 3
- Type Of Grease Filters: Metal - Cassette
- Dishwasher Safe Filters
- Charcoal Filter

SPECIFICATIONS

- Led Illumination: Yes
- Carbon Filters: Yes
- Dishwasher Safe Cassette Filters: Yes
- Plug: Yes
- Voltage (V): 220 - 240
- Frequency (Hz): 50 - 60

DIMENSIONS

- H x W x D: 18.0 x 89.8 x 28.0cm

CTB 9250 XH

90 CM RECIRCULATION STANDARD HOOD

MAIN FEATURES

- Color - Inox
- Maximum ventilation capacity: 380 cu meters/hour
- Maximum sound power level: 70 dBA
- Mechanical Control - Mechanical Control
- Illumination Type: Halogen
- Number of Motors: 3
- Number of Grease Filters: 3
- No. of Power Levels: 3
- Type Of Grease Filters: Metal - Cassette
- Dishwasher Safe Filters
- Charcoal Filter

EFFICIENCY RATINGS

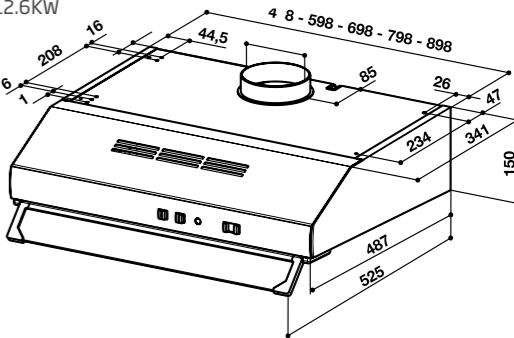

- Overall Energy Efficiency Class: D
- Fluid Dynamics Efficiency Class: E
- Lighting Efficiency Class: E
- Grease Filtering Efficiency Class: C
- Average energy consumption per year: 112.6KW

DIMENSIONS

- H x W x D: 15.0 x 90.0 x 49.0cm

CFB 9433 XH

60 CM TELESCOPIC CHIMNEY HOOD

MAIN FEATURES

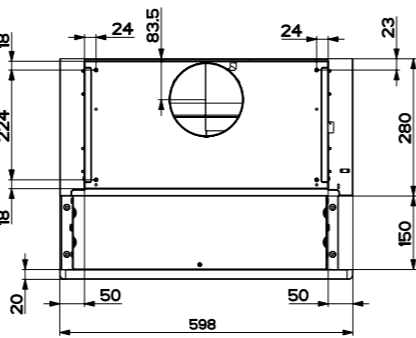

- Color - Inox
- Maximum ventilation capacity: 420 cu meters/hour
- Maximum sound power level: 69 dBA
- Mechanical Control - Mechanical Control
- Illumination Type: LED
- Number of Motors: 1
- Number of Grease Filters: 2
- No. of Power Levels: 3
- Type Of Grease Filters: Metal - Cassette
- Dishwasher Safe Filters
- Charcoal Filter

SPECIFICATIONS

- Led Illumination: Yes
- Carbon Filters: Yes
- Dishwasher Safe Cassette Filters: Yes
- Plug: Yes
- Voltage (V): 220 - 240
- Frequency (Hz): 50 - 60

DIMENSIONS

- H x W x D: 18.0 x 59.8 x 30.0cm

CTB 6250 XH

60 CM RECIRCULATION STANDARD HOOD

MAIN FEATURES

- Color - Inox
- Maximum ventilation capacity: 380 cu meters/hour
- Maximum sound power level: 70 dBA
- Mechanical Control - Mechanical Control
- Illumination Type: Halogen
- Number of Motors: 2
- Number of Grease Filters: 2
- No. of Power Levels: 3
- Type Of Grease Filters: Metal - Cassette
- Dishwasher Safe Filters
- Charcoal Filter
