Sku:	457100053000
Ean Code:	8690842803246
Manufacturers Warranty:	2 Years + 3 Years by Registration, 10 Years Inverter Motor (Parts Only)
Launch Date:	May 2026

BFLB123ADG 12 kg Autodose Washing Machine with Steam Smart Series

Smart Dosing - Thanks to a smart mix of load detection, rinse and dirt sensor combined with Auto Program, automatic detergent dosing, and adaptive drum movement, this washing machine delivers the perfect wash every time. The liquid detergent dosage amount can be adjusted more precisely based on your laundry requirements and water hardness. It's designed to get your clothes spotless while using water and detergent efficiently.

EnergySpin - Save energy & water without changing how you wash. EnergySpin, Save up to 15% Energy. That's the equivalent of one free wash every week*. Thanks to smart drum movements that dissolve detergent faster & clean effectively with less heat.

ColdWash delivers the same spotless results, saving up to 60% energy and 30% water**. And with WaterMode, you can reduce water usage by up to 28% per cycle* without sacrificing performance, so every load is cleaner and kinder to the planet.

*Based on average household usage of BFLB903ADW1 vs our previous model BFLB902ADW.

**Comparing Cotton 40 full load vs ColdWash half load for BFLB903ADW1 and using liquid detergent.

***Comparing Cotton 40 full load vs Cotton 40 full load with Save Water mode selected on BFLB903ADW1. Based on internal test results according to IEC-60456 Standard

Wifi Connectivity - Easily control your washing machine from your smartphone or tablet with our HomeWhiz technology Wizard. You can also download new programmes, set them as your favourite and remotely control and monitor your washing machine, all without needing to be in the room. And it not only helps you understand how much water and energy you're using, but why; by enabling you to analyse your patterns and routines, then offer tailored recommendations for your next wash.

Drum Light - Beko washing machines now have drum light which perfectly illuminates inside of the drum and lets you see inside better to make you sure not leaving any items inside. The drum light will turn on during program selection and after the program has completed.

Steam Refresh - Enjoy the feeling of refreshed clothes. When you wear your clothes once and don't want to fully wash them again, but a quick go-over would freshen them up. Let your washing machine refresh your clothes, remove wrinkles without doing a full wash. Steam infuses into the washing and refreshes the load.

SteamCure™ +Hygiene+ - 99.9% allergen* free with the hygienic power of steam. SteamCure's Hygiene+ steam cycle provides improved levels of cleanliness by heating the water up to 60 °C, reducing common household allergens* by up to 99.9% (approved by Allergy UK) and removing 99.9% virus and bacteria (Airmid Certification).

* House Dust Mite Allergen, Cat Allergen, Dog Allergen, Fungi Allergen
