7 kg Sensor Controlled Condenser Tumble Dryer

Optisense® Technology - Preventing over-drying, our sensor drying programmes identify the level of moisture in the drum and automatically stop the cycle when the optimal dryness level has been reached. As well as saving you time and money, your laundry will benefit from better care and protection

Auto AntiCreasing - Perfect for those days when you can't unload your laundry right away, our automatic anti-creasing function rotates the drum periodically for up to 2 hours after a cycle has finished, separating your laundry to minimise creases.
