BDPB802SW

8 kg Sensor Controlled Wifi Connected Heat Pump Tumble Dryer with Steam

Ready to Wear - Ironing your clothes everyday can be tiring. Beko’s IronFinish dryers take care of the hassle for you. With the help of steam, casual shirts come out ready to wear* and ironing is easier for business shirts as they are less creased.

*Ready to wear results from independent testing obtained for casual shirts with 100% cotton, 100% polyester, 100% viscose and 56% cotton/44% polyester blend in the Ready to Wear program. Tested by Third Party Lab

Hygienic Drying - The Hygienic Drying Program provides a deep sterilisation of your laundry killing the presence of live house dust mites and pollen. This sterilisation is possible due to the high temperature in this program, offering perfect drying cycles to protect your little one’s clothes and delicate skin.

Approved by Allergy UK

Eco Friendly- Heat Pump Technology with environmentally friendly R290 refrigerant. Beko is very committed to the respect of the environment, the fight against climate change and the protection of nature. R290 refrigerant is better for the environment than standard refrigerants used in other tumble dryers.

Recycled Dry- Beko’s RecycledDry™ Tumble dryers are made with approximately 15% recycled materials, including 2420 tons* of waste plastic bottles. And if you wonder what that means, well, you get the same durability and performance you’d expect while the planet gets a little cleaner and healthier.

*Parent company production in 2019 & 2020
