BDPB103SG

10 kg Sensor Controlled Wifi Connected Heat Pump Dryer with Steam

Ready to Wear - Ironing your clothes everyday can be tiring. Beko's IronFinish dryers take care of the hassle for you. With the help of steam, casual shirts come out ready to wear* and ironing is easier for business shirts as they are less creased.

*Ready to wear results from independent testing obtained for casua lshirts with 100% cotton, 100% polyester, 100% viscose and 56% cotton/44% polyester blend in the Ready to Wear program. Tested by Third Party Lab

Hygienic Drying - The Hygienic Drying Program provides a deep sterilisation of your laundry killing the presence of live house dust mites and pollen. This sterilisation is possible due to the high temperature in this program, offering perfect drying cycles to protect your little one's clothes and delicate skin.

Approved by Allergy UK

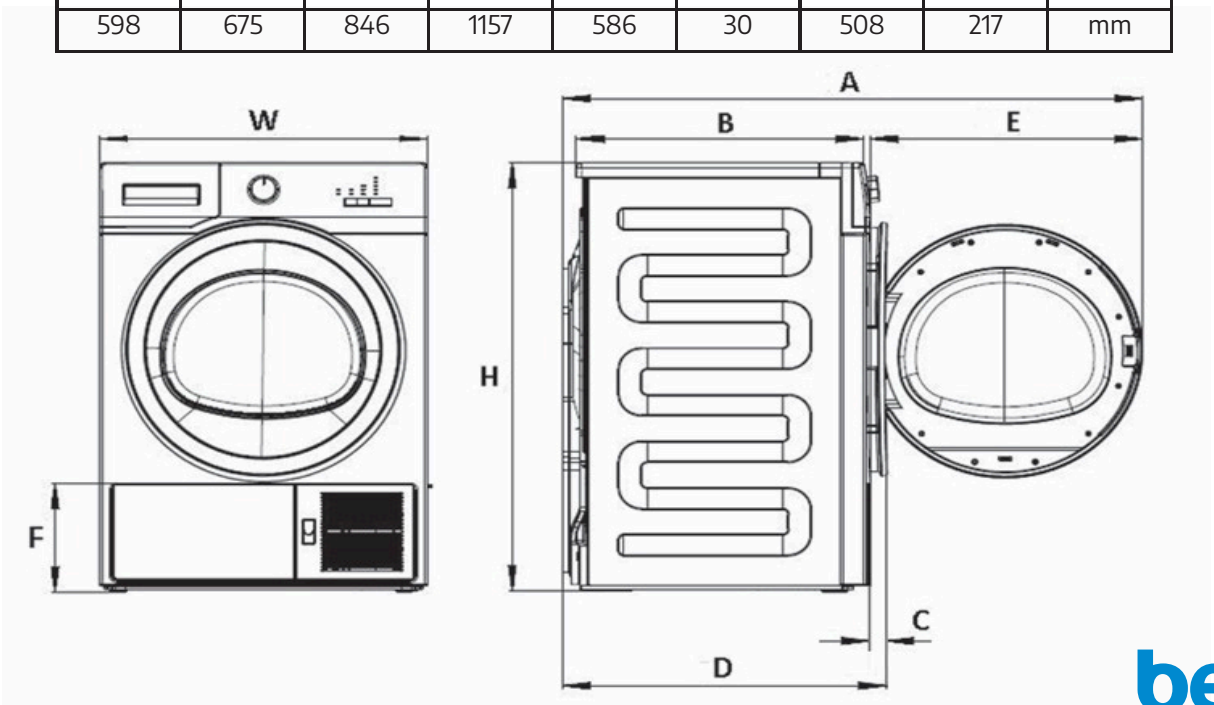

Wifi Connectivity - Easily control your dryer from your smartphone or tablet with our HomeWhiz technology Wizard. You can also download new programmes, set them as your favourite and remotely control & monitor your dryer, all without needing to be in the room. And it not only helps you understand how much energy you're using, but why; by enabling you to analyse your patterns and routines, then offer tailored recommendations for your next wash.

Super Energy Efficient Heat Pump - Quiet, stylish, and sustainable, the 10-Star Heat Pump Dryer is the perfect solution for eco-conscious households looking to cut costs without compromising performance. It dries your clothes gently at lower temperatures, preserving fabric quality and extending garment life.
