16 Place Setting Freestanding Dishwasher Stainless with Everclean Filter

Everclean™ Filter - If you're tired of checking your dishwasher filter, or not doing so but then worrying about where all the dirt goes, meet the EverClean™ filter. It's a sprinkler system that rinses the filter with pressurised water to remove leftover food and odour after each wash. All so your dishes come out brilliantly clean week after week.

AqualIntense® - There's an easy way to wash those hard-to-clean dishes. AqualIntense® creates a powerful cleaning zone with intense water pressure, so even your filthiest pots and pans get expertly cleaned. No matter what you make, or how long it cooks, your dishes come out spotless.

16 Place Setting - Perfect for big, busy families. The flexibility of the top cutlery tray, unique shape of the top basket and foldable tines throughout the dishwasher provides it's large capacity and allows you to fit more in... so you can fit it all in, in one wash.
