## 94 L Multifunction 60 cm Built-In Oven with Side Venting & Pyrolytic Self Cleaning

**Side Venting** - In addition to the hot air from the fan, hot air is blown from the side and back walls of the oven into the centre, allowing everything to cook evenly and without mixing the flavours or aromas. Beko Side Venting technology also cooks everything up to 30% faster\*

\*Tested by internal laboratories

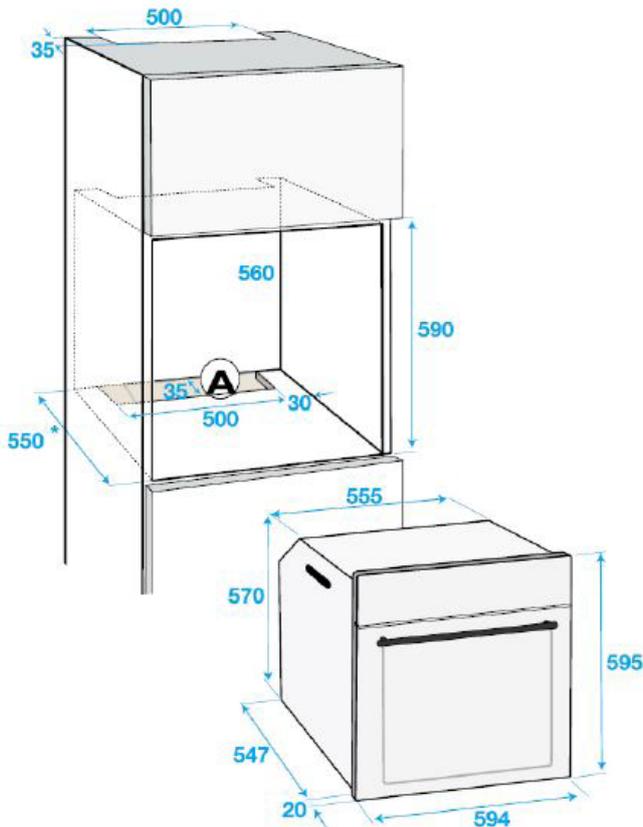

**Extra Large Capacity**- Beko CookMaster™ with its 94 Litre gross capacity means you can cook lots of food in one go - even though it's the same size as a standard oven. You can even get 5 shelves of food cooked perfectly evenly at the same time.

**Pyrolytic Self Cleaning**- Save time in the kitchen with our ovens that clean themselves at the touch of a button. The oven heats up to a super-hot 480°C, burning away dirt and grease, and then all you have to do is use a damp cloth to wipe clean.
