

LAUNDRY CATALOGUE

beko

2024

Mini Program

Beko Mini Program washes a full load of laundry in just 28 minutes at 30°C. So it can be in and out the machine quick as a flash. No more long waits for your laundry.

AquaWave

AquaWave system's curved glass door and specially designed paddles moves the laundry in a wave-like action inside the drum, treating clothes gentler and improving the washing and drying performance.

STEAMcure

SteamCure technology applies steam to the stain before the wash, softening up dirt and making it easier to remove. It also helps to reduce wrinkles, so put away that iron – you've got less to do both before and after the wash now

HomeWhiz™

HomeWhiz; Beko's smart washing machine technology. With up to 7 downloadable programs to ease your laundry needs, ranging from problem alert to favourite and customized program setting. Laundry is now just click away from anywhere in your home.

Hygiene+

The Hygiene+ Programme blends sensitive temperature controls with additional rinse and spin cycles to make sure these microorganisms are removed from laundry. Working at a range of 20 °C to 90 °C, the 60°C cycle is approved by Allergy UK to eliminate 99.9% of allergens.

beko

TUMBLE DRYER

2024

RapiDry

Innovative heating, super-fast drying
RapiDry™ Technology lets you run a quick-drying program when you're short on time. You can even dry 5kg laundry in one hour. And you still have the option of an energy-saving program. With an A+++ energy rating, it saves you 70% energy compared to condenser machines.

IRONfinish

Ironing technology inside, ready to wear clothes outside!

Beko's IronFinish Dryers gets your clothes completely dry and ready to wear. It works the same as a regular iron, infusing water and steam into your clothing for the ideal time at the ideal temperature, so fabrics come out smooth and ready to wear.

AquaWave

AquaWave system's curved glass door and specially designed paddles moves the laundry in a wave-like action inside the drum, treating clothes gentler and improving the washing and drying performance.

STEAMcure

Enjoy the feel of refreshed clothes!

SteamCure Tumble Dryers refresh your clothes, removing odours and wrinkles without doing a full wash. Steam infused into the dryer refreshes the load so that you can enjoy fully refreshed clothing!
