## 8 kg Sensor Controlled Heat Pump Tumble Dryer

**EcoGentle™** - EcoGentle heat pump technology means you can dry without draining the colours - or your bank account. Drying at a lower temperature (60°C with EcoGentle™ heat pump instead of 110°C with an AV condenser) it is gentler on your clothes.

**BabyProtect®** - The BabyProtect+® Program provides a deep sterilisation of your laundry killing the presence of live house dust mites and pollen. This sterilisation is possible due to the high temperature in this program, offering perfect drying cycles to protect your little one's clothes and delicate skin.

\*Approved by Allergy UK

**Auto AntiCreasing** - Perfect for those days when you can't unload your laundry right away, our automatic anti-creasing function rotates the drum periodically for up to 2 hours after a cycle has finished, separating your laundry to minimise creases.
