PREMIUM TECHNOLOGY

HARVESTFRESH™

Proprietary 3-color light technology simulates the 24-hour cycle of the sun. By mimicking a full day of sunshine, produce has been proven to retain its vitamins and minerals for up to five days longer than ordinary refrigerators.

NEOFROST™ DUAL COOLING TECHNOLOGY

NeoFrost™ Dual Cooling's separate cooling systems for each compartment maintain ideal air flow and optimal temperatures with a high level of humidity in both the freezer and the fridge.

FREEZE GUARD

Beko Freeze Guard technology uses an inverter compressor and electronic temperature control system to ensure the freezer continues to work in ambient temperatures as low as 5° F, without any loss of performance.*

*The fridge compartment will not work properly in low temperatures, so we recommend you only use the freezer compartment in low ambient temperatures.
