

HydroTrio™ Pro

Wet and Dry Vacuum Cleaner

*Source Euromonitor International Limited, Consumer Appliances 2025 edition, Beko Corp, Large Appliances as per "Major Appliances", GBO, retail volume, 2024 data.

Features

Wet and Dry Cleaning

Elevates cleaning efficiency by integrating vacuuming, mopping, and liquid suction into a single powerful tool.

High Power Flexible Cleaning

Delivers powerful 400W motor performance and 21.6V battery flexibility, making it ideal for versatile, cordless cleaning solutions.

Quick and Powerful Spill Absorption

Features a powerful liquid suction mechanism that rapidly absorbs spills, perfect for kitchens, bathrooms, and other areas prone to wet dirt.

Versatile Cleaning Power

With strong suction power and multiple cleaning modes, effectively tackles dry dirt, dust, and debris on carpets and hard floors.

Effective Mopping

Designed for effective mopping, enabling users to eliminate stubborn stains and spills with powerful suction and mopping capabilities.

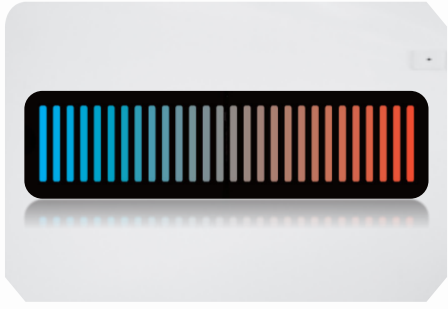

Hygienic Dual Tank System

The dual tank system keeps clean and dirty water separate, ensuring hygienic cleaning by preventing cross-contamination, with a fresh water tank capacity of 620ml and a dirty water tank capacity of 400ml.

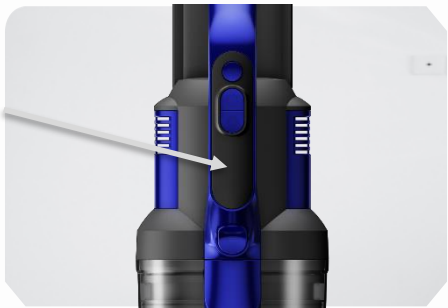

Automatic Self-Cleaning Roller

Features a self-cleaning roller that rinses and dries automatically, minimizing manual maintenance while ensuring the device remains in optimal condition.

Dirt Level Indicator

This feature visually indicates dirt levels on the screen, helping users identify areas that require additional cleaning for a thorough clean every time.

Integrated Display Screen

Provides real-time information about the cleaning mode, battery status, and alerts, allowing users to easily monitor performance.

Features

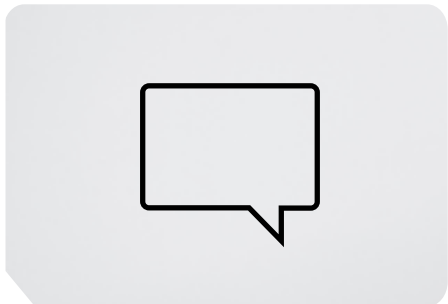

Efficient Cordless Cleaning

Equipped with an EPA E10 filter and offering 60 minutes of cordless running time at handheld usage , ensuring effective cleaning without interruptions.

LED Light

Equipped with a green LED light and a dual roller system, ensures optimal visibility for finer dust particles and delivers advanced cleaning capabilities.

Multi-Language Voice Prompts

Localized voice prompts in English, Polish, and Turkish deliver real-time instructions and feedback, enhancing usability and improving the user experience.

Mini Turbo Brush (Motorized Pet Brush)

Efficiently removes dust, debris, and pet hair from surfaces, including upholstery and textiles, and is suitable for vehicle interiors as well.
