beko

Please read this manual first!

Dear Customer,

Thank you for purchasing a Beko product. We hope that you get the best results from your product which has been manufactured with high quality and state-of-the-art technology. Therefore, please read this entire user manual and all other accompanying documents carefully before using the product and keep it as a reference for future use. If you handover the product to someone else, give the user manual as well. Follow all warnings and information in the user manual.

Meanings of the symbols

Following symbols are used in the various section of this user manual:

	Important information and useful hints about usage.
	Warnings for dangerous situations concerning the safety of life and property.
	Warning for hot surfaces.

This product has been manufactured in environmental friendly modern plants without giving any harm to the nature.

1 Important safety and environmental instructions

Important Safety Instructions Read Carefully And Keep For Future Reference

This section contains safety instructions that will help protect from risk of fire, electric shock, exposure to leak microwave energy, personal injury or property damage. Failure to follow these instructions shall void any warranty.

1.1 General safety

- The microwave oven is intended for heating food and beverages. Drying of food or clothing and heating of warming pads, slippers, sponges, damp cloth and similar may lead to risk of injury, ignition or fire.

This appliance is intended to be used in household and similar applications such as:

- Staff kitchen areas in shops, offices and other working environments;
- Farm houses
- By clients in hotels, motels and other residential type environments;

- Bed and Breakfast type environments.
- Do not attempt to start the oven when its door is open; otherwise you may be exposed to harmful microwave energy. Safety locks should not be disabled or tampered with.
- Do not place any object between the front side and the door of the oven. Do not allow dirt or cleaning agent remnants built-up on the closure surfaces.
- Any service works involving removal of the cover that provides protection against exposure to microwave energy must be performed by authorized persons/service. Any other approach is dangerous.
- Your product is intended for cooking, heating and defrost food at home. It must not be used for commercial purposes. Manufacturer shall not be held liable for damages that have arisen from misuse.
- Do not use this appliance outdoors, bathrooms, humid environments or in places where the it can get wet.

- No responsibility or warranty claim shall be assumed for damages arising from misuse or improper handling of the appliance.
 - Never attempt to dismantle the appliance. No warranty claims are accepted for damage caused by improper handling.
 - Only use the original parts or parts recommended by the manufacturer.
 - Do not leave this appliance unattended while it is in use.
 - Always use the appliance on a stable, flat, clean dry, and non-slip surface.
 - The appliance should not be operated with an external clock timer or separate remote control system.
 - Before using the appliance for the first time, clean all parts. Please see the details given in the "Cleaning and Maintenance" section.
 - Operate the appliance for its intended purpose only as described in this manual. Do not use abrasive chemicals or steam on this appliance. This oven is particularly intended for heating and cooking the food.
- It is not intended for industrial or laboratory use.
- Do not use your appliance to dry clothes or kitchen towels.
 - Appliance becomes very hot while it is in use. Pay attention not to touch the hot parts inside the oven.
 - Your oven is not designed to dry any living being.
 - Do not operate the oven empty.
 - Only use utensils that are suitable for use in microwave ovens.
 - Cooking utensil may get hot due to the heat transferred from the heated food to the utensil. You may need oven gloves to hold the utensil.
 - Utensils shall be checked to ensure that they are suitable for use in microwave ovens.
 - Do not place the oven on stoves or other heat generating appliances. Otherwise, it may be damaged and the warranty becomes void.
 - Microwave oven must not be placed in a cabinet that is not in compliance with the installation instructions.

- Steam may come out while opening the covers or the foil after cooking the food.
- Use gloves while taking any kind of heated food out.
- The appliance and its accessible surfaces may be very hot when the appliance is in use.
- Door and outer glass may be very hot when the appliance is in use.

1.1.1 Electrical safety

- If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similarly qualified person in order to avoid a hazard.
 - Beko Microwave Ovens comply with the applicable safety standards; therefore, in case of any damage on the appliance or power cable, it should be repaired or replaced by the dealer, service center or a specialist and authorized service alike to avoid any danger. Faulty or unqualified repair work may be dangerous and cause risk to the user.
 - Make sure that your mains power supply complies with the information supplied on the rating plate of the appliance.
- The only way to disconnect the appliance from the power supply is to remove the power plug from the power outlet.
- Use the appliance with a grounded outlet only.
 - Never use the appliance if the power cable or the appliance itself is damaged.
 - Do not use this appliance with an extension cord.
 - Never touch the appliance or its plug with damp or wet hands.
 - Place the appliance in a way so that the plug is always accessible.
 - Prevent damage to the power cable by not squeezing, bending, or rubbing it on sharp edges. Keep the power cable away from hot surfaces and naked flame.
 - Make sure that there is no danger that the power cable could be accidentally pulled or that someone could trip over it when the appliance is in use.
 - Unplug the appliance before each cleaning and when the appliance is not in use.
 - Do not pull the power cable of the appliance to disconnect it from its power supply and never wrap its power cable around the appliance.

- Do not immerse the appliance, power cable, or power plug in water or any other liquids. Do not hold it under running water.
- When heating food in plastic or paper containers, keep an eye on the oven due to the possibility of ignition.
- Remove the wire strings and/or metal handles of paper or plastic bags before placing bags suitable for use in microwave oven to the oven.
- If smoke is observed, switch off or unplug the appliance and keep the door closed in order to stifle any flames.
- Do not use inside of the oven to store something. Do not leave paper items, cooking material or food inside the oven when it is not being used.
- The contents of feeding bottles and baby food jars shall be stirred or shaken and the temperature shall be checked before consumption, in order to avoid burns.
- This appliance is a Group 2 Class B ISM equipment. Group 2 contains all ISM (Industrial, Scientific and Medical) equipment in which radio-frequency energy is intentionally generated and/or used in the form of electromagnetic radiation for the treatment of material, and spark erosion equipment.
- Class B equipment is suitable for use in domestic establishments and establishments directly connected to a low voltage power supply network.
- Door or outer surface of the appliance may become hot when it is in use.

1.1.2 Product safety

- Heating the beverages with microwave may cause them to boil by splashing around after they have been taken out of the oven; so be careful when you are holding the containers.
- Do not roast anything in the oven. Hot oil may damage the components and materials of the oven, and it may even cause skin burns.
- Pierce food with thick crust such as potatoes, zucchinis, apples and chestnuts.

- Appliance must be placed so that the rear side is facing the wall.
- Before moving the appliance, please secure the turntable to prevent damage to it.
- Eggs in their shell and whole hard-boiled eggs must not be heated in microwave ovens since they may explode, even after microwave heating has ended.
- Never remove the parts at the rear and sides of the appliance, which protect the minimum distances between the cabinet walls and the appliance in order to allow for the required air circulation.
- **WARNING:** If the door or door seals are damaged, the oven must not be operated until it has been repaired by a competent person.
- **WARNING:** It is hazardous for anyone other than a competent person to carry out any service or repair operation which involves the removal of a cover which gives protection against exposure to microwave energy.
- **WARNING:** Liquids and other foods must not be heated in sealed containers since they are liable to explode.

1.2 Intended use

- The oven should be cleaned regularly and any food deposits removed.
- Failure to maintain the oven in a clean condition could lead to deterioration of the surface that could adversely affect the life of the appliance and possibly result in a hazardous situation.
- Cleaning the door seals and adjacent parts: Use hot soapy water. Clean with a dish cloth, do not scour. Do not use a metal or glass scraper for cleaning.
- Do not use the appliance for anything other than its intended use.
- Do not use the appliance as a heat source.
- Microwave oven is intended to thaw, cook and stew food only.
- Do not over-cook foods; otherwise, you may cause a fire.
- Do not use steam assisted cleaners to clean the appliance.

1.3 Children's safety

- Extreme caution is advised when being used near children and persons who are restricted in their physical, sensory or mental abilities.
- This appliance can be used by the children who are at the age of 8 or over and by the people who have limited physical, sensory or mental capacity or who do not have knowledge and experience, as long as they are supervised with regard to safe use of the product or they are instructed accordingly or understand the risks of using the product. Children should not play with the appliance. Cleaning and user maintenance procedures should not be performed by children unless they are controlled by their elders.
- Danger of choking! Keep all the packaging materials away from children.
- Only allow children to use the oven without supervision when adequate instructions have been given so that the child is able to use the microwave oven in a safe way and understands the hazards of improper use.
- Due to excessive heat that arises in grill and combination modes, children should only be allowed to use these modes under supervision of an adult.
- Keep the product and its power cable so that they are inaccessible by children under 8 years old.
- The appliance and its accessible surfaces may be very hot when the appliance is in use. Keep children away.
- The appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervised or instruction concerning use of the appliance by a responsible person for their safety.
- Young children should be supervised to ensure that they do not play with the appliance.
- **WARNING:** Only allow children to use the oven without supervision when adequate instructions have been given so that the child is able to use the oven in a safe way and understands the hazards of improper use.

1.4 Compliance with the WEEE Directive and Disposing of the Waste Product

This product complies with EU WEEE Directive (2012/19/EU). This product bears a classification symbol for waste electrical and electronic equipment (WEEE).

This product has been manufactured with high quality parts and materials which can be reused and are suitable for recycling. Do not dispose of the waste product with normal domestic

and other wastes at the end of its service life. Take it to the collection center for the recycling of electrical and electronic equipment. Please consult your local authorities to learn about these collection centers.

1.5 Compliance with RoHS Directive

The product you have purchased complies with EU RoHS Directive (2011/65/EU). It does not contain harmful and prohibited materials specified in the Directive.

1.6 Package information

Packaging materials of the product are manufactured from recyclable materials in accordance with our National Environment Regulations. Do not dispose of the packaging materials together with the domestic or other wastes. Take them to the packaging material collection points designated by the local authorities.

1.7 Plug Wiring

The moulded plug on this appliance incorporates a 13 A fuse. Should the fuse need to be replaced an ASTA approved BS1362 fuse of the same rating must be used. Do not forget to refit the fuse cover. In the event of losing the fuse cover, the plug must not be used until a replacement fuse cover has been fitted. Colour of the replacement fuse cover must be the same colour as that visible on the pin face of the plug. Fuse covers are available from any good electrical store.

• Fitting a different plug

- As the colours of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals on your plug, proceed as follows:
- Brown cable = L (Live)
- Blue cable = N (Neutral)
- Green/yellow cable must be connected to ground (E) \equiv line
- With the alternative plugs a 13 A fuse must be fitted either in the plug or adaptor or in the main fuse box. If in doubt contact a qualified electrician.

2 Your microwave oven

2.1 Overview

1. Door safety lock system
2. Oven window
3. Roller ring
4. Shaft
5. Control panel
6. Wave guide (Please do not remove the mica plate covering the wave guide)
7. Glass tray

2.2 Technical data

Power consumption	220V-240V; 50Hz, 1400 W (Microwave)
Output	900 W
Operation frequency	2450 MHz
Outside dimensions	281(H)×483(W)×418(D) mm
Oven cavity dimensions	220(H)×315(W)×360(D)mm
Oven capacity	25 l
Cooking uniformity	Turntable System
Net weight	13.5 kg

Markings on the product or the values stated in other documents supplied with the product are values obtained under laboratory conditions as per relevant standards. These values may vary according to the usage of the appliance and ambient conditions. Power values are tested at 230V.

3 Installation and connection

3.1 Installation guide

1. Make sure that all the packing materials are removed from the inside of the door.

WARNING: Check the oven for any damage, such as misaligned or bent door, damaged door seals and sealing surface, broken or loose door hinges and latches and dents inside the cavity or on the door. If there is any damage, do not operate the oven and contact qualified service personnel.

2. This microwave oven must be placed on a flat, stable surface to hold its weight and the heaviest food likely to be cooked in the oven.
3. Do not place the oven where heat, moisture, or high humidity are generated, or near combustible materials.
4. For correct operation, the oven must have sufficient airflow. Allow 20cm of space above the oven, 10cm at back and 5cm at both sides. Do not cover or block any openings on the appliance. Do not remove feet.
5. Do not operate the oven without glass tray, roller support, and shaft in their proper positions.
6. Make sure that the power supply cord is undamaged and does not run under the oven or over any hot or sharp surface.
7. The socket must be readily accessible so that it can be easily unplugged in an emergency.
8. Do not use the oven outdoors.

3.2 Grounding instructions

This appliance must be grounded. This oven is equipped with a cord having a grounding wire with a grounding plug. It must be plugged into a wall receptacle that is properly installed and grounded. In the event of an electrical short circuit, grounding reduces risk of electric shock by providing an escape wire for the electric current.

It is recommended that a separate circuit serving only the oven be provided. Using a high voltage is dangerous and may result in a fire or other accident causing oven damage.

WARNING: Improper use of the grounding plug can result in a risk of electric shock.

If you have any questions about the grounding or electrical instructions, consult a qualified electrician or service person.

Neither the manufacturer nor the dealer can accept any liability for damage to the oven or personal injury resulting from failure to observe the electrical connection procedures.

The wires in this cable main are colored in accordance with the following code:

Green and Yellow = EARTH

Blue = NEUTRAL

Brown = LIVE

3.3 Radio interference

Operation of the microwave oven can cause interference to your radio, TV, or similar equipment.

When there is interference, it may be reduced or eliminated by taking the following measures:

1. Clean door and sealing surface of the oven.
2. Reorient the receiving antenna of radio or television.
3. Relocate the microwave oven with respect to the receiver.
4. Move the microwave oven away from the receiver.
5. Plug the microwave oven into a different outlet so that microwave oven and receiver are on different branch circuits.

4 Operation

4.1 Control panel

The control panel consists of two function operators. One is a time knob, and the other a power knob.

Power/Action Selector

You use this operator knob to choose a cooking power level. It is the first step to start a cooking session.

Timer Knob

Offer visual timing settings at easy turn of your thumb to select a desired cooking time up to 30 minutes per cooking session.

Microwave Cooking

For pure microwave cooking, there are six power levels from which to choose one as best fit to do the job at hand.

Power level increases with the knob turning clockwise. The power levels can be classified as the following:

Power Output	Description
100%	High
88%	M.High
73%	Med
52%	M.Low
42%	Defrost
20%	Low

4 Operation

4.2 Operating instructions

To start a cooking session,

1. Place food into oven and close the door.
2. Turn Power Selector to select a power level.
3. Use Timer knob to set a cooking time.

As soon as the timer is turned, oven starts cooking. When selecting time for less than 2 minutes, turn timer past 2 minutes and then return to the correct time.

ALWAYS RETURN TIMER BACK TO ZERO POSITION if food is removed from oven before the set cooking time is complete or when oven is not in use. To stop oven during cooking process, push the door release button or open the door by the handle.

4.3 Cooking techniques

1. Arrange food carefully. Place thickest areas towards outside of dish.
2. Watch cooking time. Cook for the shortest amount of time indicated and add more as needed. Food severely overcooked can smoke or ignite.
3. Cover foods while cooking. Covers prevent spattering and help foods to cook evenly.
4. Turn foods over once during microwave cooking to speed cooking of such foods as chicken and hamburgers. Large items like roasts must be turned over at least once.
5. Rearrange foods such as meatballs halfway through cooking both from top to bottom and from the center of the dish to the outside.

4.4 Cooking utensils guide

1. Microwave cannot penetrate metal. Only use utensils that are suitable for use in microwave ovens. Metallic containers for food and beverages are not allowed during microwave cooking. This requirement is not applicable if the manufacturer specifies size and shape of metallic containers suitable for microwave cooking.
2. Microwave cannot penetrate metal, so metal utensils or dishes with metallic trim should not be used.
3. Do not use recycled paper products when microwave cooking, as they may contain small metal fragments which may cause sparks and/or fires.
4. Round /oval dishes rather than square/oblong ones are recommend, as food in corners tends to overcook.
5. Narrow strips of aluminum foil may be used to prevent overcooking of exposed areas. But be careful don't use too much and keep a distance of 1 inch (2.54cm) between foil and cavity. The list below is a general guide to help you select the correct utensils.

Cookware	Microwave Cooking
Heat-Resistant Glass	Yes
Non Heat-Resistant Glass	No
Heat-Resistant Ceramics	Yes
Microwave-Safe Plastic Dish	Yes
Kitchen Paper	Yes
Metal Tray	No
Metal Rack	No
Aluminum Foil & Foil Containers	No

5 Cleaning and maintenance

5.1 Cleaning

WARNING: Never use gasoline, solvent, abrasive cleaning agents, metal objects or hard brushes to clean the appliance.

1. Turn off the oven and unplug the power cord from the wall when cleaning.
2. Keep the inside of the oven clean. When food splatters or spilled liquids adhere to oven walls, wipe with a damp cloth. Mild detergents may be used if the oven gets very dirty. Avoid using spray or other harsh cleaners. They may stain, streak or dull the door surface.
3. The outside of the oven should be cleaned with a damp cloth. To prevent damage to the operating parts inside the oven, water should not be allowed to seep into the ventilation openings.
4. Wipe the door and window on both sides, the door seals and adjacent parts frequently with a damp cloth to remove any spills or splatters. Do not use abrasive cleaner.
5. A steam cleaner is not be used.
6. Do not allow the control panel to become wet. Clean with a soft, damp cloth. When cleaning the control panel, leave oven door open to prevent oven from accidentally turning on.
7. If steam accumulates inside or around the outside of the oven door, wipe with a soft cloth. This may occur when the microwave oven is operated under high humidity condition. And it is normal.
8. It is occasionally necessary to remove the glass tray for cleaning. Wash the tray in warm sudsy water or in a dishwasher.
9. The roller ring and oven floor should be cleaned regularly to avoid excessive noise. Simply wipe the bottom surface of the oven with mild detergent. The roller ring may be washed in mild, soapy water or in a dishwasher. When removing the roller ring, be sure to replace it in the proper position.
10. Remove odors from your oven by combining a cup of water with the juice and skin of one lemon in a microwaveable bowl. Microwave for 5 minutes. Wipe thoroughly and dry with a soft cloth.
11. If the light bulb burns out, please contact customer service to have it replaced.
12. The oven should be cleaned regularly and any food deposits should be removed. Failure to maintain the oven in a clean condition could lead to deterioration of surface that could adversely affect the life of the unit and could possibly result in a hazardous situation.
13. Please do not dispose of this appliance into the domestic rubbish bin; it should be disposed to the particular disposal center provided by the municipalities.

5.2 Storage

- If you do not intend to use the appliance for a long time, please store it carefully.
- Please make sure that the appliance is unplugged, cooled down and totally dry.
- Store the appliance in a cool and dry place.
- Keep the appliance out of the reach of children

5.3 Handling and transportation

- During handling and transportation, carry the appliance in its original packaging. The packaging of the appliance protects it against physical damages.
- Do not place heavy loads on the appliance or the packaging. The appliance may be damaged.
- Dropping the appliance will render it non-operational or cause permanent damage..
