Halogen Illumination

Clear view of what's happening inside

Want to see how your cooking is going but don't want to open the door and lose the heat inside? Halogen Illumination helps you see all your oven's cavity, so you can keep an eye on your culinary creations with the door firmly shut.

Durable Door

Sturdy door for carrying heavy dishes & cookware

Hot, heavy dishes and pots can be difficult to get out of the oven. Durable Door supports loads as heavy as 22.5 kg. That's 20% more than standard oven doors so you can rest your piping hot pot on the open oven door while you take a breather.

Telescopic Shelves

Safe & easy-pull-out tray

If you find yourself struggling to get that heavy dish out of the oven, Telescopic Shelves will make your life easier. Its runner system lets you pull out the shelf all the way out (or 2/3 of it, for partial Telescopic version) of the oven while supporting your dish.
