SelFit

Stable door position at any angle

You are about to unload the dishwasher but the open door takes so much space that not much is left for you to move around. With SelFit, you can balance the door at any angle, so you can load and unload the dishes without the door getting in anyone's way. Plus, the sturdy mechanism can carry furniture doors of up to 9 kg.

Sliding Cutlery Basket

More room for pots & pans in the lower rack

The cutlery basket's a clever invention but it gets in the way when you want to place a large pot in the lower rack. Well, the Sliding Cutlery Basket solves that problem by moving freely to the right and left so you have room to fit in those bulkier items.

Sliding Detergent Dispenser

Easy-to-open dispenser lid

Don't hurt your fingers trying to open the detergent dispenser. The Sliding Detergent Dispenser is so easy to open and close that it makes adding detergent a doddle.
