SelFit

Stable door position at any angle

You are about to unload the dishwasher but the open door takes so much space that not much is left for you to move around. With SelFit, you can balance the door at any angle, so you can load and unload the dishes without the door getting in anyone's way. Plus, the sturdy mechanism can carry furniture doors of up to 9 kg.

Sliding Cutlery Basket

More room for pots & pans in the lower rack

The cutlery basket's a clever invention but it gets in the way when you want to place a large pot in the lower rack. Well, the Sliding Cutlery Basket solves that problem by moving freely to the right and left so you have room to fit in those bulkier items.

Sliding Detergent Dispenser

Easy-to-open dispenser lid

Don't hurt your fingers trying to open the detergent dispenser. The Sliding Detergent Dispenser is so easy to open and close that it makes adding detergent a doddle.

SteamGloss

Water-mark-free glasses

The table's set but your glasses look like they've got water marks on them. SteamGloss's 10-minute long extended heat cycle makes sure that glasses shine like they're brand new. With 23%* shinier glassware and 30%* shinier china, your next dinner table will dazzle anyone around. *Tested by 3rd party laboratories

Easy-fold Plate Support

Extra room for pots & pans

Every time you cook, you're using different-sized pots and pans, and you need a dishwasher that understands that. The Easy Fold Plate Support lets you easily remove room for plates to fit in those massive pots and pans. The days of having to wash the largest items by hand are gone, and good riddance!
