ProSmart™ Inverter motor with a ten-year warranty

High efficiency, longer durability and lower noise level

Exceptional results of washing pans, pots, plates and other dishes are made possible thanks to motor that can work at different speeds, depending on the selected program. This motor also enables the operation of additional modes such as tray wash (washing trays) or aqua intense (intensive washing zone) or deep wash (intensive bottle washing), which are available in some dishwasher models.

AutoDose

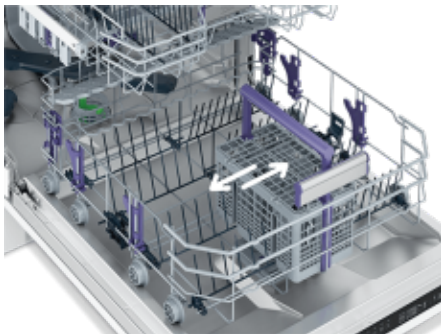

Optimum detergent, efficient cleaning

Forget worrying about using enough detergent, or even adding it before every wash. Just fill your dishwasher with liquid detergent and let AutoDose automatically dispense just enough of it for a month. The result? Sparkling clean dishes every single time, without the constant hunt for the detergent bottle.

Fast+

3 times faster cleaning

Sometimes you don't have the time to wait for a full wash cycle to finish. The Fast+ function speeds up the washing cycle for up to 3 times* with optimum performance, meaning you can wash and serve in no time at all. *Tested by internal laboratories.

Sliding Cutlery Basket

More room for pots & pans in the lower rack

The cutlery basket's a clever invention but it gets in the way when you want to place a large pot in the lower rack. Well, the Sliding Cutlery Basket solves that problem by moving freely to the right and left so you have room to fit in those bulkier items.

Easy-fold Plate Support

Extra room for pots & pans

Every time you cook, you're using different-sized pots and pans, and you need a dishwasher that understands that. The Easy Fold Plate Support lets you easily remove room for plates to fit in those massive pots and pans. The days of having to wash the largest items by hand are gone, and good riddance!
